**MEMORANDUM**
**TO: INTERESTED PARTIES**
**FR: DAVID FLAHERTY, MAGELLAN STRATEGIES**
**RE: PROPOSITION 107 / PRESIDENTIAL PRIMARY SURVEY FINDINGS**

---

Magellan Strategies today released the results of a live landline and cell phone survey of 500 likely 2016 general election voters in Colorado. The interviews were conducted August 29th to 31st and the survey has a margin of error of +/- 4.38% at the 95 percent confidence interval.

---

**Survey Findings**

The survey finds that a majority of voters support Proposition 107, the measure on the ballot this November that would re-create a Presidential Primary election in Colorado and would allow unaffiliated voters to vote in that election without declaring a party affiliation. Among all respondents, 54% would vote yes and approve the proposition, 36% would vote no and reject it, and 10% of voters are undecided. Support is, not surprisingly, strongest among unaffiliated voters, with a large majority of 66% voting "yes" to approve the measure. Interestingly, support is also very strong among Democrats, with 60% supporting Proposition 107. It is among Republican voters that the real opposition is found, as only 39% support the measure, and a majority of 51% intend to vote no and reject it. Looking at the results by age range, the group most likely to support Proposition 107 is the group most likely to feel disenfranchised. Nearly half of voters aged 18 to 34 are registered as unaffiliated, and 69% of that voter subgroup intend approve the ballot measure. The following table shows the Proposition 107 ballot test by voter subgroup.

**Proposition 107 Survey Results by Voter Subgroup**

| | All Voters | Men | Wom | 18-34 | 35-44 | 45-54 | 55-64 | 65+ | Dem | Rep | Unaf |
|---|---|---|---|---|---|---|---|---|---|---|---|
| Approve | 54% | 55% | 54% | 69% | 48% | 47% | 58% | 46% | 60% | 39% | 66% |
| Reject | 36% | 38% | 35% | 22% | 44% | 40% | 38% | 41% | 29% | 51% | 27% |
| Undecided | 10% | 7% | 11% | 9% | 8% | 13% | 4% | 13% | 11% | 10% | 7% |

**Summary**

The survey finds Proposition 107 having broad support among unaffiliated voters and Democrats and weak support among Republican voters. Proposition 107 appears to be in a position to pass this November, but the final outcome could depend on who turns out to vote. If younger and unaffiliated voters are discouraged from voting because of their

dissatisfaction with the candidates at the top of the ticket, the likelihood of Proposition 107 passing could be at risk.

**Survey Weighting Decisions**

The survey results are weighted to reflect the age, gender, and party turnout demographics of the 2012 Presidential election in Colorado. While we do think that the 2016 voter turnout demographics in Colorado could be different than 2012, we think that it is too early to quantify a drop in voter turnout intensity by party or age group. We also believe that there are strong arguments to be made that Donald Trump's candidacy could depress some Republican voters from casting a ballot. However, there is also a plausible argument to be made that Hillary Clinton's campaign is struggling to motivate and inspire some Democrats and younger voters to cast a ballot. The truth is that until ballots are mailed out on October 17th, we will not know if there is a measurable drop in voter turnout by age group or party.

**Survey Sample**

The survey sample was randomly drawn from a Colorado voter file among households containing at least one registered voter. This survey topline and crosstab results are included in this document. Any questions regarding this survey or our methodology should be directed to David Flaherty. He can be reached at 303-861-8585 or by email at dflaherty@magellanstrategies.com.

**Survey Commissioned By**

This survey and the Amendment 71 ballot question was not commissioned or paid for by any issue committee, campaign, individual, or independent expenditure group.

**Survey Methodology**

This survey was conducted by live dialing both landline and cell phone sample. The sample used for this survey was randomly drawn from a state of Colorado voter file. The survey response data was weighted based upon previous general election demographics. The interviews were conducted on August 29th – 31st, 2016. Three attempts were made to interview each household in the sample. This survey has a margin of error of +/- 4.38% at the 95 percent confidence interval.

Table 3-2
As you may know, there are several statewide amendments and initiatives on the ballot this November. I am now going to read to you the ballot language of some of those ballot questions.
T3. The following is language for a ballot question that would create a Presidential primary election and would allow unaffiliated voters to vote in the eleciton.
"Shall there be a change to the Colorado Revised Statutes re-creating a Presidential primary election to be held before the end of March in each presidential election year in which unaffiliated electors may vote without declaring an affiliation with a political party?"
If the election were being held today, would you vote YES and approve this ballot measure, or would you vote NO and reject it?
