MEMORANDUM

TO: INTERESTED PARTIES

FR: DAVID FLAHERTY, MAGELLAN STRATEGIES

RE: COLORADO 2016 U.S. SENATE VOTER OPINION SURVEY

Magellan Strategies today released the results of a live landline and cell phone survey of 500 likely 2016 general election voters in Colorado. The interviews were conducted August 29th to 31st and the survey has a margin of error of +/- 4.38% at the 95 percent confidence interval.

Survey Findings

Looking at the U.S. Senate race in Colorado, our survey finds Michael Bennet leading Darryl Glenn by 10 points, 48% to 38% respectively. Four percent of voters are supporting Libertarian candidate Lily Tang Williams, 3% support Green Party candidate Arn Menconi, and 7% of voters are undecided. Reviewing the survey data by party, we see that Michael Bennet holds a significant lead among Unaffiliated voters, 46% to 28%, while also holding the support of a very significant portion of his own party's voters (90%). Senator Bennet also leads convincingly among voters age 18-34 (49% to 28%) and voters age 35-44 (52% to 37%). Darryl Glenn holds a large lead over Senator Bennet among married men (53% to 36%), and also leads among voters age 45-54 (45% to 40%).

U.S. Senate Ballot Test Results by Voter Subgroup

	All Voters	Men	Wom	18-34	35-44	45-54	55-64	65+	Dem	Rep	Unaf
Bennet	48%	45%	51%	49%	52%	40%	52%	48%	90%	9%	46%
Glenn	38%	42%	35%	28%	37%	45%	40%	43%	5%	82%	28%
Williams	4%	4%	3%	6%	1%	7%	1%	1%	1%	3%	6%
Menconi	3%	5%	1%	7%	4%	1%	2%	0%	2%	1%	4%
Undecided	7%	4%	10%	10%	6%	7%	5%	7%	2%	5%	16%

Summary

This survey finds Senator Michael Bennet leading Darryl Glenn by 10 points, a sizable advantage which, if it holds, would be the largest margin of victory in a Colorado U.S. Senate race in quite some time. If the undecided voters break for Darryl Glenn in the next month, this could become a tight race, although it is clear that Senator Bennet has run a strong campaign thus far and that the dynamics of this race will have to shift in order for Darryl Glenn to become competitive.

Survey Weighting Decisions

The survey results are weighted to reflect the age, gender, and party turnout demographics of the 2012 Presidential election in Colorado. While we do think the 2016 voter turnout demographics in Colorado could be different than they were in 2012, we think it is too early to measure a drop in voter turnout intensity by party or age group. We also believe there are strong arguments to be made that Donald Trump's candidacy [could depress some Republican voters](#) from casting a ballot. However, there is also a plausible argument to be made that Hillary Clinton's [campaign is struggling](#) to motivate and inspire some Democrats and younger voters to cast a ballot. The truth is, until ballots are mailed out on October 17th, we will not know if there is a measurable drop in voter turnout by age group or party.

Survey Sample

The survey sample was randomly drawn from a Colorado voter file among households containing at least one registered voter. The survey topline and crosstab results are included in this document. Any questions regarding this survey or our methodology should be directed to David Flaherty. He can be reached at 303-861-8585 or by email at dflaherty@magellanstrategies.com.

Survey Commissioned By

This survey was not commissioned or paid for by any issue committee, campaign, individual, or independent expenditure group.

About Magellan Strategies

Magellan Strategies offers a wide array of services to candidate campaigns, ballot issue campaigns, government relations firms, trade associations, and local and county governments. Our services include polling, survey research, focus groups, voter data mining, voter data analysis, and campaign consulting and management. Our offices are located in Louisville, Colorado. To learn more about our company please visit <http://www.MagellanStrategies.com> or call 303-861-8585.

Colorado General Election Survey Topline Results

Magellan Strategies are pleased to present the topline results for a 500n live survey of likely general election voters in the state of Colorado. The interviews were conducted August 29th – 31st, 2016. This survey has a margin of error of +/- 4.38% at the 95 percent confidence interval. This survey was weighted based upon previous general election demographics.

T1. Are you registered to vote as a Republican, a Democrat or an independent voter?

Republican	35%
Democrat	34%
Unaffiliated	30%
Libertarian	1%
Green Party	0%

T2. How likely are you to vote in the general election this November? Would you say you are extremely likely, very likely, somewhat likely or unlikely to vote?

Extremely Likely	76%
Very Likely	18%
Somewhat Likely	6%

T3. If the election for the United State Senate were being held today, would you vote for Michael Bennet, the Democrat candidate, Darryl Glenn, the Republican candidate, Lily Tang Williams, the Libertarian candidate or Arn Menconi, the Green Party candidate?

Bennet.....	48%
Glenn.....	38%
Williams.....	4%
Menconi.....	3%
Some other candidate.....	0%
Undecided/Don't know/Refused.....	7%

T4. Are you married, widowed, separated, divorced, single and never been married, or unmarried and living with a partner?

Married	61%
Single never been married	20%
Divorced	9%
Widowed	5%
Unmarried, living with a partner.....	4%
Separated	0%
No opinion.....	1%

T5. Which of the following age groups applies to you?

18-34	23%
35-44	17%
45-54	19%
55-64	20%
65+	21%
Refused	0%

T6. What is your racial or ethnic background?

White	79%
Hispanic or Latino	15%
Black or African American.....	4%
Other.....	2%
Don't Know or Refused	0%

T7. Are you male or female?

Female	52%
Male.....	48%

Survey Methodology

This survey was conducted by live dialing both landline and cell phone sample. The sample used for this survey was randomly drawn from a state of Colorado voter file. The survey response data was weighted based upon previous general election demographics. The interviews were conducted on August 29th – 31st, 2016. Three attempts were made to interview each household in the sample. This survey has a margin of error of +/- 4.38% at the 95 percent confidence interval.
