When I'm trying to say is they sacrifice a lot to make sure the rent gets paid yet I am not alone to ask for aid. I apply for food stamps and I only get \$19 a month and food stamps. I am grateful for little yes but how does one live on that? I receive \$2070 a month in income. My rent alone is \$1,700. That does not include my utilities. I think I should be able to ask for rental assistance also. Even though I am not behind. The biggest issue though is the high number of homeless people living on the streets. 					I believe that Gov. Polis and the state legislature should be addressing economic impacts of government action that are intended to reduce the spread of COVID-19. Many industries and businesses, big and small, have been greatly impacted by shutdowns and some industries have been unfairly punished compared to the role that they play in the spread of the disease. I also believe that Gov. Polis and the state legislature should be working with school systems to ensure that a fair, reasonable, and level-headed form of education is being applied to Coloradan children that is free of undue and inappropriate influence from teachers and curriculums that favor social lessons over true history or information. In addition, distance learning has gained technological stature and should be explored as a new way to support the education of children in Colorado through co-ops and other homeschooling options. With the availability of teachers declining for a bevy of reasons, this could be a way forward that retains the quality of education for Coloradan children while empowering more parental engagement. I also believe that Gov. Polis and the state legislature should be focusing on the ongoing water shortage that is experienced in the state. With a growing population with no signs of slowing down as evidenced in the Colorado Springs housing market, this will become increasingly important as time goes on. I would like to see Gov. Polis and the state legislature also begin to invest in solar energy for the state that is facilitated through land that receives a state subsidy such as farms. If farms are limiting production due to droughts, then the land should still be able to serve the people of Colorado that are subsidizing the land. Solar and wind energy can be farmed on this land to provide assistance to Coloradans and prepare for an imminent push in electric vehicles that will drive up electricity demands.

Urb. Fem	Old Gen X	Single	Less 4 Yr	Unaf.	Covid relief so that we in Colorado can hunker down and get thru the pandemic. That means a total freeze on all accounts receivables including rent and mortgage payments; we can pick back up with our payments when we get through the other side? The Colorado state government should give everybody a SNAP card for food That's how you get us through to the other side? Stop expecting us to go out and work in an environment that will most likely make us sick and could kill a good portion of us!
Urb. Fem	Old Gen X	Single	Less 4 Yr	Unaf.	Affordable housing- it is almost impossible for a single mother to raise two children alone and afford mortgage or outrageously expensive rentals!

Sub. Male	Old Mill.	Single	Less 4 Yr	Unaf.	The most important thing Colorado can do for itself is to cut all ties with Government Oligarchs and completely eliminate and rebuild our voting systems. Dominion should be dissolved and/or criminally prosecuted. We need school choice, government education is horrible. Government should be small and should be ending monopoly companies. Encourage manufacturing, real jobs (not computer work) and invest heavily in small businesses.
Sub. Male	Old Mill.	Single	Less 4 Yr	Unaf.	Getting everyone out of the faux frenzy. Get kids back in school and able bodied adults back to work. Instead of quarantining everyone, maybe just voluntarily allow quarantine for those that are at risk or scared of becoming ill and support their personal decisions. Americans are not dumb, we don't need big government to tell us to wear a mask and not to go to work.

Urb. Fem	Old Mill.	Single	Less 4 Yr	Unaf.	Homeless plan I was born and raised here and Denver is not the city it use to be the homeless population is out of control. I would also like to see the vaccine roll out work, I have two over 60 relatives waiting for a call for the shot but some how others are getting vaccines that don?t meet the ?guidelines?. Open the school let all the teachers get a shot or move on to another job if they don?t want to.
Urb. Fem	Old Mill.	Single	Less 4 Yr	Unaf.	I think that governor polis should NOT be the governor GET HIM OUT !!!
Urb. Male	Old Mill.	Single	Less 4 Yr	Unaf.	We need to start opening more back up. Want to see plans for opening outdoor music venues for the upcoming season. We need our music!
Urb. Male	Old Mill.	Single	Less 4 Yr	Unaf.	Low income families, unemployment and the COVID crisis should be the first issue that get addressed.
Urb. Male	Old Mill.	Single	Less 4 Yr	Unaf.	In my personal opinion, I believe that the kids should be going to school full-time. If they go one or two days a week what's the difference between 5 days a week considering they would still have the exposure. Restaurants and everything else should be allowed to open back up, and get on with life normally. I've noticed since the practice of "social distancing", has become more like desensitizing the public to not have interaction with each other anymore, and since I've noticed everyone social distancing there's not as many friendly hellos and waves as there used to be.

Urb. Male	Yng. Gen X	Single	Less 4 Yr	Unaf.	He needs to open fracking. He needs to open businesses. He needs to let go of the Mask mandates. All of these things are against our constitutional rights especially on an individual level. The other thing is targeted taxation. Amendment 3E is unconstitutional taxation without representation. We also need to look into our elections both local and Statewide. We should never use unregistered mail-in voting. And we should never use Dominion voting systems.
Urb. Male	Yng. Gen X	Single	Less 4 Yr	Unaf.	Poverty, police brutality, racism, criminal justice reform are very important issues that have had a direct impact on My family and friends lives. It is my greatest hope that the Governor and State Legislature approaches these issues with the same urgency that sports team have when playing big games.
