

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Urb. Fem	Old Mill.	Single	4+ Yr	Dem.	Don't trust it. I'll take my chances. I'm healthy
Urb. Fem	Yng. Mill.	Single	4+ Yr	Dem.	Not needed. I already have antibodies and am healthy.
Sub. Male	Old Mill.	Married	Less 4 Yr	Dem.	I'm pretty sure I already contracted the virus, I am confident in my health knowledge to fight off viruses and ill health. Fasting is imperative, exercise, healthy diet in addition to proper supplementation not to mention I'm young. I'm ashamed the country is still in lockdown, there has been no establishment of a protocol for all to follow and science is ignored
Urb. Male	Yng. Boom	Married	Less 4 Yr	Dem.	I have not received a shot of any kind in more than 10 years, and have not had as much as a cold.
Sub. Male	Old Mill.	Ref.	Less 4 Yr	Dem.	Because I'm young and healthy, it's a non issue.
Sub. Male	Yng. Boom	Married	4+ Yr	Oth.	It's simply not a concern. It is not deadly
S Town Male	Yng. Mill.	Single	4+ Yr	Oth.	Lack of trust in the vaccines safety
Sub. Fem	Yng. Gen X	Married	Less 4 Yr	Oth.	I don't get flu shots either. GOD gives us antibodies and I am not going to inject myself with big pharma chemicals and aborted baby parts. it's a flu, it's not a big deal. The hysteria over the real numbers is ridiculous and deceptive.
Rur. Male	Gen Z	Single	Less 4 Yr	Oth.	I have already contracted the virus. I was asymptotic. People that want the vaccine should get it and those that don't should not be restricted because they don't have it. I'm not totally against the vaccine but, I would have to see how it effects the general public as a whole and make sure there are no side effects before receiving it. Until then I will not put something potentially harmful in my body when I have already had the virus.
Urb. Male	Old Mill.	Single	Less 4 Yr	Oth.	The speed at which the vaccine was pushed through the FDA and reports of issues involved with the vaccine have made it impossible for me to trust that it will work.
Urb. Fem	Yng. Mill.	Single	Less 4 Yr	Oth.	I do not want or need to get a vaccination that may or may not stop a virus from infecting me. But will ultimately make me sick because the antivirus has the virus in it. I've never gotten the flu shot and have never gotten the flu.
S Town Fem	Old Gen X	Ref.	Ref.	Oth.	Legislation and Pharmaceutical Companies have not been transparent about what's in vaccines nor the process of approving them. They're priorities are clearly to make a profit only and disregard precautions and proper procedures as well as educating the public on how they work and the risks.
Rur. Male	Yng. Boom	Married	4+ Yr	Ref.	Not reliably tested, questionable effectiveness

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Urb. Male	Yng. Mill.	Ref.	Less 4 Yr	Ref.	Because its not that big of a issue to me and numbers are inflated how come flu is down but Corona is up? Cant be the masks right?
Urb. Male	Yng. Mill.	Single	Less 4 Yr	Ref.	I got a reliable immune system and a loving God
Sub. Fem	Old Boom	Married	4+ Yr	Rep.	I don't think the vaccination is trustworthy and could very well do permanent damage in my body.
Sub. Male	Old Boom	Married	4+ Yr	Rep.	Not enough testing for safety. Being pushed for political reasons
Sub. Male	Old Boom	Married	4+ Yr	Rep.	I?m not sick and don?t get sick.
Rur. Fem	Old Gen X	Married	4+ Yr	Rep.	With a death rate of less than 1%...why would I?
Rur. Male	Old Gen X	Married	4+ Yr	Rep.	Had it before it was known as corona virus. No point in getting a vaccine. I don't do the flu shot either
Sub. Fem	Old Gen X	Married	4+ Yr	Rep.	It is NOT SAFE. It is not vaccine. It is experimental technology.
Sub. Fem	Old Gen X	Married	4+ Yr	Rep.	There has not been enough testing to be completely sure it is safe.
Sub. Fem	Old Gen X	Married	4+ Yr	Rep.	There isn't enough information on long term side effects. It's less effective than the chances of actually getting the virus. You still have to wear a mask, which I don't agree with either. Bodies are made to fight viruses naturally not with synthetics.
Sub. Male	Old Gen X	Married	4+ Yr	Rep.	Not enough tests on the vaccine. Plus the virus is not as dangerous as the government wants us to think it is.
Urb. Fem	Old Gen X	Married	4+ Yr	Rep.	Don't believe effectiveness of a vaccine for viral infections
Urb. Male	Old Gen X	Married	4+ Yr	Rep.	Not interested in an untested vaccine to prevent a virus that we both got over in 2 days. If I had to choose between having Corona or the flu I will take Corona every time. This whole thing is a sick overreaction.
Rur. Fem	Old Mill.	Married	4+ Yr	Rep.	Lack of sound, statistical research on the effects of the vaccine for individual groups I.e. mitochondrial disease
Sub. Fem	Old Mill.	Married	4+ Yr	Rep.	I already had Covid. I've had hangovers worse than that.
Sub. Male	Old Mill.	Married	4+ Yr	Rep.	History shows that vaccines are not fully understood for several years. Who knows what the side effects are.

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Sub. Male	Old Mill.	Married	4+ Yr	Rep.	While I do believe COVID-19 is real, I believe it's been highly politicized in order to ascertain control. Just look at how our borders are now open, but we actually Americans are advised to stay out and not travel. How come the illegal aliens, terrorists in Guantanamo Bay, and people in the Middle East get better treatment than us citizen? How come the same rules don't apply to us
Sub. Male	Old Mill.	Married	4+ Yr	Rep.	Pretty early, not much history of side effects and longer term health
Rur. Male	Yng. Boom	Married	4+ Yr	Rep.	In tested vaccine and I do not believe it is as big a threat as the media has made it out to be
Rur. Male	Yng. Boom	Married	4+ Yr	Rep.	Recent CDC data reports just over 500 deaths from vaccine. Also no information given on how often vaccines will need to be taken.
Rur. Male	Yng. Boom	Married	4+ Yr	Rep.	It's an experimental drug where the long term effects aren't known. It's my body not the governments. It does not prevent covid and no one is sure if you can catch it afterwards or continue to spread it anyway. My parents live in a nursing home in VT that had no covid. They brought the vaccine in and after administering it everyone caught covid and 3 died. Why get a shot and then be told(illegally) that I still have to wear a mask? All of this is stupid.
S Town Male	Yng. Boom	Married	4+ Yr	Rep.	Don't know the side effects
Sub. Fem	Yng. Boom	Married	4+ Yr	Rep.	1. I have a 95% chance of getting better without drugs 2. Not enough testing to verify efficacy and safety
Sub. Fem	Yng. Boom	Married	4+ Yr	Rep.	It's like the flu vaccine...you're always behind on the vaccine vs the version of the flu
Sub. Male	Yng. Boom	Married	4+ Yr	Rep.	it has not been tested enough, side effects are not yet known
Sub. Male	Yng. Boom	Married	4+ Yr	Rep.	None of your Socialist business
Sub. Fem	Yng. Gen X	Married	4+ Yr	Rep.	Because anew strain is introduced every year and our bodies must be exposed to it to become stronger against them.
Sub. Male	Yng. Gen X	Married	4+ Yr	Rep.	the risk is so minimal, it is not necessary, especially since it does not prevent transmission, only lessens symptoms
Sub. Male	Yng. Gen X	Married	4+ Yr	Rep.	The long term effects are not known.
Urb. Male	Yng. Gen X	Married	4+ Yr	Rep.	Rather get the real virus. The new rna vaccines are closer to gene editing and are unproven. The fast track of the vaccine, with less testing isn't encouraging either.

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Rur. Fem	Yng. Mill.	Married	4+ Yr	Rep.	Not enough data to support its effectiveness/safety, also not high risk & believe in the power of taking care of the body via holistic measures to support immune system (physical activity, balances diet, sleep etc.)
Urb. Male	Yng. Mill.	Married	4+ Yr	Rep.	Because I am 26, healthy, believe I have already had the virus and am at almost no risk at all from this overblown flu. Also, if Fauci says I still have to social distance and wear a mask AFTER BEING VACCINATED, then there is zero reason for me to even consider it
Rur. Fem	Old Mill.	Ref.	4+ Yr	Rep.	Lack of trust in the government. No transparency about the virus as the virus has impacted our economy worse than it's impact on people
Rur. Male	Gen Z	Single	4+ Yr	Rep.	Mistrust and the thought that the government may start to mandate it
S Town Fem	Old Boom	Single	4+ Yr	Rep.	Because as an adult I have for decades chosen not to get the flu shots the pneumonia shot the shingles shot I believe in living a healthy life that has built up my body and immunity
Urb. Male	Old Boom	Single	4+ Yr	Rep.	Hydroxychloriquin
Sub. Male	Old Gen X	Single	4+ Yr	Rep.	I'll get vaccinated when I know it's completely safe. At this point I don't have that confidence.
Urb. Fem	Old Gen X	Single	4+ Yr	Rep.	Because I was quarantined for 2 weeks with someone who did while they were sick and it had no effect on me.
Urb. Fem	Old Mill.	Single	4+ Yr	Rep.	Not sure that vaccine has been proven safe enough. We are unsure of the potential risks or effects in the long term that this vaccine can have in our system. Vaccine is potentially the cause of variants we are currently seeing
S Town Male	Yng. Boom	Single	4+ Yr	Rep.	Risks of Covid on healthy people below the age of 75 are minimal. Vaccine is mRNA based and unproven over long periods.
Urb. Male	Yng. Boom	Single	4+ Yr	Rep.	Untested. Alters DNA. NOT NEEDED. current recovery percentage from COVID is 98% without vaccine
Urb. Fem	Yng. Gen X	Single	4+ Yr	Rep.	Don't get the flu shot. Have severe allergies. Not taking the risk.
Urb. Male	Yng. Gen X	Single	4+ Yr	Rep.	Because I feel that the virus is being blown out of proportion just as a political ploy

Rur. Fem	Old Boom	Married	Less 4 Yr	Rep.	Personal
S Town Fem	Old Boom	Married	Less 4 Yr	Rep.	To scary of a vaccine. Crazy scientist...not viable or tested enough...seems controlling and kills older people. News media not honest about deaths from it
S Town Fem	Old Boom	Married	Less 4 Yr	Rep.	I don't believe in vaccines for flu or the Election Infection.

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Sub. Fem	Old Boom	Married	Less 4 Yr	Rep.	The ingredients And it could trigger GBS, Giønn beret syndrome.
Rur. Male	Old Gen X	Married	Less 4 Yr	Rep.	I dont see a need for it.
S Town Male	Old Gen X	Married	Less 4 Yr	Rep.	It was rushed and I feel there's no understanding of potential long term effects it could have on me.
S Town Male	Old Gen X	Married	Less 4 Yr	Rep.	It has been rushed, anything rushed is not good. You think they would have learned the lesson in the 60's with Thalidomide and all the birth defects.
Sub. Fem	Old Gen X	Married	Less 4 Yr	Rep.	Lack of clinical trials. 99.6% is survival rate in my age bracket vs 99.4% success rate with vaccine.
Sub. Fem	Old Gen X	Married	Less 4 Yr	Rep.	I've already had covid-19 and recovered fine. I have antibodies that are natural. I don't get the flu shot, and I won't get this one either.
Sub. Fem	Old Gen X	Married	Less 4 Yr	Rep.	I don't need to be part of a government experiment.
Urb. Fem	Old Gen X	Married	Less 4 Yr	Rep.	It doesn't work. It's poison.
Rur. Fem	Old Mill.	Married	Less 4 Yr	Rep.	I will not be subjected to a fast Tracked unproven vaccine for which the long term side effects are simply unknown.
Rur. Male	Old Mill.	Married	Less 4 Yr	Rep.	The entire thing is and was being over played to ruin the greatest president we've ever had TRUMP. CDC has even said that only 6% of the Covid deaths we're actually from Covid. Even your survey is dumb. Oh know Covid get the fuck out of here. Damn Dems
Rur. Male	Old Mill.	Married	Less 4 Yr	Rep.	Bc i dont belive in shots period i dont get a flu shot
S Town Male	Old Mill.	Married	Less 4 Yr	Rep.	Not applicable
S Town Male	Old Mill.	Married	Less 4 Yr	Rep.	The survival rate is too high to be vaccinated with something most of us can fight off naturally by proper health, vitamins and hygiene practices. We
Rur. Fem	Yng. Boom	Married	Less 4 Yr	Rep.	It's too new, going to watch what happens to the public
Rur. Male	Yng. Boom	Married	Less 4 Yr	Rep.	Have always been healthy and the people Ive heard of getting it had some heath issue
S Town Fem	Yng. Boom	Married	Less 4 Yr	Rep.	The vaccines have had no trial period. Probably do more harm than good.
S Town Male	Yng. Boom	Married	Less 4 Yr	Rep.	This is an experimental vaccine that has NOT been successfully tested as it should have been. There are no possible way that they know the long term effects, and I'm on immune system supression due to my heart transplant. The fact sheet states that I will have limited immunity with the vaccine, and who's to say it won't cause me to reject my heart?
Sub. Fem	Yng. Boom	Married	Less 4 Yr	Rep.	Too much unknown data I am healthy and feel like I can fight it
Sub. Fem	Yng. Boom	Married	Less 4 Yr	Rep.	Don't believe in it hasn't been proven yet to be safe or effective
Sub. Male	Yng. Boom	Married	Less 4 Yr	Rep.	I don?t trust it as being safe!

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response

Urb. Fem	Yng. Boom	Married	Less 4 Yr	Rep.	Not enough evidence that it is effective.
Urb. Male	Yng. Boom	Married	Less 4 Yr	Rep.	to early, untested for side affects
Urb. Male	Yng. Boom	Married	Less 4 Yr	Rep.	Don't trust boobie Biden.
S Town Fem	Yng. Gen X	Married	Less 4 Yr	Rep.	It's a personal decision that I will make based on my current medical situation.
S Town Fem	Yng. Gen X	Married	Less 4 Yr	Rep.	It's not a real vaccine!it just masks the symptoms, and does not create immunity as a real vaccine would. It has not been sufficiently tested!
S Town Fem	Yng. Gen X	Married	Less 4 Yr	Rep.	Don't feel the need
Sub. Fem	Yng. Gen X	Married	Less 4 Yr	Rep.	It's the flu with a 99% survival rate. I'm more likely to die from playing a football game!!!!
Sub. Fem	Yng. Gen X	Married	Less 4 Yr	Rep.	No
Urb. Fem	Yng. Gen X	Married	Less 4 Yr	Rep.	I'm a health care worker, already had covid. I'll wait a year to see side effects of other people. Plus if I'm going to die from it (it's my time)
Rur. Fem	Old Boom	Ref.	Less 4 Yr	Rep.	NOT SAFE. VIRUS IS SAFER 99.8 survival
Rur. Male	Yng. Boom	Ref.	Less 4 Yr	Rep.	It's not fda approved
S Town Male	Yng. Boom	Ref.	Less 4 Yr	Rep.	Corona virus has been a hoax. Planned by politicians. I will never take a vaccine that can change my dna. I lack trust for it!
Rur. Male	Gen Z	Single	Less 4 Yr	Rep.	I don't trust it and would rather build up immunity if I got it or came in contact with it.
Sub. Male	Gen Z	Single	Less 4 Yr	Rep.	I don't trust it
Rur. Fem	Old Boom	Single	Less 4 Yr	Rep.	As a medical professional, I believe it was developed so quickly that I'm unsure of the safety of it.
S Town Fem	Old Boom	Single	Less 4 Yr	Rep.	Already had the virus and I don't believe it is perfected in the short amount of time.
S Town Male	Old Boom	Single	Less 4 Yr	Rep.	Not enough research, and I don't plan on being a guinea pig for the government.
Urb. Fem	Old Boom	Single	Less 4 Yr	Rep.	I will not participate in an experimental vaccine program.
Sub. Male	Old Gen X	Single	Less 4 Yr	Rep.	my mother is 79 with respiratory issues an she still waiting , my12 yr. old kid stays home most of the time..... I'll wait till my mom is vaccinated an my kid can go to school again ... I'm not worried about me . I think my kids fine to but if that's what it takes for you fools to open schools again. but I'd rather my kid wait till theres more info on the vaccination , before she exposed to it .
Urb. Male	Old Gen X	Single	Less 4 Yr	Rep.	I would prefer more time to pass since the release of the emergency approval for the vaccine...

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response

Sub. Male	Old Mill.	Single	Less 4 Yr	Rep.	I honestly don't care for a vaccine that targets a virus that has a 99.95% recovery rate. I trust in my personal healthy lifestyle decisions, vitamins, and immune system to do what it needs to do for me to flourish.
Rur. Fem	Silent	Single	Less 4 Yr	Rep.	Real scientists and doctors have concerns that vaccines were not properly tested for safety and effectiveness. Too many side effects and deaths have been reported.
S Town Fem	Yng. Boom	Single	Less 4 Yr	Rep.	We've had cold and flu season for 80 years no shot ever helped not stupid enough to think that our government came up with a shot in a matter of weeks to cure Covid when they know nothing about it Bill Gates is behind it he wants to control the population no way in hell I'm taking it nor will anyone in my family I do not trust anything that's been happening since MarchAnd doesn't anyone find it interesting that no one has had the cold or the flu since all this started????
S Town Male	Yng. Boom	Single	Less 4 Yr	Rep.	It is all a lie...the common flu has been killing/yearly deathrate the human population as much, or more, as the covid issue since statistics on flu and every other disease have been kept. You are trying to give the gov more power and trying to take away our civil liberties to include the right to live free as we see fit by scaring, and lying to, the public. I have not worn a mask since April20, and have not even had a cold without any type of flu shot...promote healthy lifestyles, take care of yourself, and get proper rest/sleep, and you will ward off 95% of all illnesses, diseases, and infections.
S Town Male	Yng. Boom	Single	Less 4 Yr	Rep.	I don't get it for the flu either
S Town Male	Yng. Boom	Single	Less 4 Yr	Rep.	Why should I get it? I never get a flu shot having died from the flu so why get a shot from that
Rur. Male	Yng. Gen X	Single	Less 4 Yr	Rep.	It's not safe or tested enough to be considered safe! Plus if God wanted us to be vaccinated then viruses wouldn't have been created!
S Town Male	Yng. Gen X	Single	Less 4 Yr	Rep.	Think it's a big sham that was created by the democrats for control
Sub. Male	Yng. Gen X	Single	Less 4 Yr	Rep.	Let me own body fight the virus like millions of other people. Why get a vaccine when you have a good immune system.
Urb. Fem	Yng. Gen X	Single	Less 4 Yr	Rep.	Don't trust the vaccine
Urb. Male	Yng. Gen X	Single	Less 4 Yr	Rep.	Vaccine came out to fast no time to legitimately know what the side effects are

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Sub. Fem	Yng. Mill.	Single	Less 4 Yr	Rep.	I don't trust it. What are the long term effects? Why two shots? Why the big push on a vaccine that doesn't have any research on it expect for what big pharma wants us to hear.
Sub. Fem	Yng. Mill.	Single	Less 4 Yr	Rep.	I don't need the vaccine. I haven't been sick since beginning of covid.
S Town Fem	Old Boom	Married	Ref.	Rep.	Our doctor recommended we do not get it. I'm good with that.
Rur. Fem	Yng. Boom	Married	Ref.	Rep.	I don't feel a vaccine is safe and I feel like our governor is just a drug dealer trying to get everybody to take the stupid ass vaccine
S Town Fem	Yng. Boom	Married	Ref.	Rep.	Because it's been pushed through so quickly not sure what long term effects would be and because they haven't even been able to control the common flu why should I trust this
S Town Fem	Yng. Gen X	Married	Ref.	Rep.	Not trying to grow a new limb or tail!
Sub. Male	Yng. Boom	Ref.	Ref.	Rep.	It has not been properly tested and is not safe
Urb. Male	Yng. Boom	Ref.	Ref.	Rep.	The cure for the Coronavirus is the coronavirus in some cases. I am 65 had heart surgery months back and got the virus not even close to the worst flu I've had no vaccine 4 me
Rur. Fem	Old Boom	Married	4+ Yr	Unaf.	Don't trust it. Have been lots of lies to the citizens. NOT FDA approved. Drs and researchers in the know say it's really not a true vaccine. Too many unknowns!
Sub. Fem	Old Boom	Married	4+ Yr	Unaf.	It is not a true vaccination. I don't believe in the flu shot and definitely not this.
Urb. Male	Old Boom	Married	4+ Yr	Unaf.	Don't trust the Government aided by the pharmaceutical conglomerate who have all shown themselves to be against the Common Working-class Citizen, only interested in benefiting themselves to enrich themselves at the expense of the working-class!
Rur. Fem	Old Gen X	Married	4+ Yr	Unaf.	No confidence in the integrity of the vaccine. If big pharma was held liable for vaccine damage might change my mind
Sub. Male	Old Gen X	Married	4+ Yr	Unaf.	Highly allergic.
Sub. Male	Old Gen X	Married	4+ Yr	Unaf.	I'd rather get the virus
Urb. Male	Old Gen X	Married	4+ Yr	Unaf.	We need more information. I don't think suger water is Cure.

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
S Town Fem	Old Mill.	Married	4+ Yr	Unaf.	This is an experimental vaccine that doesn't stop the transmission of the infection and the side affects of it (initially) are worse than COVID for most people. My body is 99 and 1/2 percent effective at overcoming the virus as is. There is absolutely no reason to risk the side affects of the vaccine (including death, Bell's palsy, transverse myelitis, etc) for a reward that is still less than what my body can produce naturally. Besides, treatments such as ivermectin, hydrochloriquine, and Budesonide nebulizer are effective at treating COVID symptoms, and if the FDA were to consider acknowledging this, then the emergency use authorization of the experimental COVID vaccines would have to be revoked. This would become and should be a non-question. This ongoing pandemic is 100% political.
Sub. Fem	Old Mill.	Married	4+ Yr	Unaf.	I don't trust the quality of the vaccine. We have no idea the long term side effects
Sub. Male	Old Mill.	Married	4+ Yr	Unaf.	It is an exeperimental, untested anti-viral with serious, frequent side effects and no data on long term effects of use. The vaccine has no predictable timeline of protection. It could last 90 days or 6 months, no one knows at this point.
Sub. Male	Old Mill.	Married	4+ Yr	Unaf.	The virus is basically the flu...how many other diseases that have a 99.8% survival rate do we have vaccines for? The answer is 0. No thanks
Urb. Male	Old Mill.	Married	4+ Yr	Unaf.	Too much risk relative to a young healthy person just getting covid
Urb. Male	Old Mill.	Married	4+ Yr	Unaf.	As a fairly healthy young person, I see no reason that I would need to be vaccinated. Utilizing resources provided by CDPHE, the CDC, and information that I gain from working in public health, there is very little to no reason for someone of my demographic to receive or even consider the vaccine. No one in my household is high risk and the vaccine does not prevent the spread of the disease. As an extremely low risk individual in an extremely low risk household, the uncertainty of the effects of the vaccine far outweigh the danger of actually contracting the disease and actually becoming ill, which is already a very low chance. Furthermore, the currently produced vaccine has great uncertainty as to whether or not it will protect against variants of the disease making it potentially useless. Finally, since I do not need the vaccine, I would not want to take any doses for someone that does need it.
Urb. Male	Old Mill.	Married	4+ Yr	Unaf.	Don't need it, it's a ploy and a scam.
Rur. Male	Yng. Boom	Married	4+ Yr	Unaf.	I don't trust the federal or state governments will have the best interest of individuals. Particularly, with Demorcats in charge.

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Sub. Male	Yng. Boom	Married	4+ Yr	Unaf.	Dont need it, not effective and not well tested.
Sub. Male	Yng. Boom	Married	4+ Yr	Unaf.	This whole thing is ridiculous
Sub. Male	Yng. Boom	Married	4+ Yr	Unaf.	I will wait to observe longer term side affects. Some in our family have not experienced severe cases.
Rur. Fem	Yng. Gen X	Married	4+ Yr	Unaf.	I do not want to be part of an experiment. It only promises to lessen the severity of the symptoms. After the vaccine, it can still be caught and transmitted. There are treatments out there for covid and my chances of healing from it are much higher on my own than with a vaccine. There are too many dangerous side effects happening to too many people for me to even consider the vaccine.
Sub. Male	Yng. Gen X	Married	4+ Yr	Unaf.	I never get vaccinations. I work on having a healthy immune system. This is not a deadly disease for healthy people.
Urb. Fem	Yng. Gen X	Married	4+ Yr	Unaf.	Long term effects are still unknown and we've already had Corona
Rur. Fem	Old Boom	Ref.	4+ Yr	Unaf.	Vaccine is unnecessary in an illness that is only 1 percent fatal for most people. Vaccine has not been adequately tested.
Urb. Male	Old Gen X	Ref.	4+ Yr	Unaf.	Because the risk of getting the Virus is much less than the risk of taking a vaccination that has not been properly tested
Sub. Fem	Old Gen X	Single	4+ Yr	Unaf.	Because it doesn't make sense when it has a low risk of death and masks don't work. Mostly because I have no idea what the long term effects may be.
Urb. Fem	Old Mill.	Single	4+ Yr	Unaf.	My body can do it's own thing.
Rur. Fem	Yng. Boom	Single	4+ Yr	Unaf.	I support childhood vaccines but have opted out of flu and coronavirus vaccines. I believe I've been exposed to covid 19 but have had zero illness issues. I'm 57 and an endurance athlete.
Rur. Male	Old Gen X	Married	Less 4 Yr	Unaf.	I've never had flu shot so I'm not going to start know
Sub. Male	Old Gen X	Married	Less 4 Yr	Unaf.	The long term affects of the vaccine has not been determined. And I dont trust the government or big pharma. And the vaccine is not permanent. You'll have to take the vaccine 2-4 times a year to be safe. I just dont believe what I'm being told.
S Town Fem	Old Mill.	Married	Less 4 Yr	Unaf.	I dont trust the first generation of any product.
S Town Male	Old Mill.	Married	Less 4 Yr	Unaf.	The vaccine was developed without direct access to the novel coronavirus and underwent only minimal testing. I will not volunteer to be a lab rats for mega corps when their own CEOs won't even agree to take the vaccine themselves.

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Sub. Male	Old Mill.	Married	Less 4 Yr	Unaf.	Vaccines have been around for years and they can take decades to get correct. Im not subjecting myself or my family to experimental medicine just for public perception. Thats dangerous.
Urb. Fem	Old Mill.	Married	Less 4 Yr	Unaf.	I am allergic to a lot of things including one of the ingredients warned about on the CDC website. I can not be vaccinated and neither can my husband.
Urb. Fem	Old Mill.	Married	Less 4 Yr	Unaf.	Vaccines have to be tested and I won't be a test subject.
Rur. Fem	Yng. Boom	Married	Less 4 Yr	Unaf.	don't trust the tests, to many bad side effects
Rur. Male	Yng. Boom	Married	Less 4 Yr	Unaf.	I already had it it was a cold but I got over like most people
S Town Fem	Yng. Boom	Married	Less 4 Yr	Unaf.	It's barely been tested, I'm not doing it
S Town Fem	Yng. Boom	Married	Less 4 Yr	Unaf.	I don't trust the impact it could cause on my health. We have too many friends across the US who have had the second vaccination and have become seriously ill.
S Town Male	Yng. Boom	Married	Less 4 Yr	Unaf.	Last year I worked through it.. at its worst.. delivered to food and medical suppliers.. I was in the army.. and have vaccines that have caused problems they have not owned up to yet.. don't need to jump in to another one just yet.. I'll wait a while..
Urb. Male	Yng. Boom	Married	Less 4 Yr	Unaf.	I do not trust big Pharma, Microsoft! they could actually put tracking devices and other nanotechnology which I do not trust for myself and my family!
Rur. Fem	Yng. Gen X	Married	Less 4 Yr	Unaf.	Because it's no worse than the flu and I do not get a flu shot either.
S Town Fem	Yng. Gen X	Married	Less 4 Yr	Unaf.	It's a sham doesn't help any more than the flu vaccine and the people that take that I see get sick every year when I eat healthy, take vitamins, and exercise and don't get sick. I use common sense with washing hands and covering my mouth when sneezing to prevent the spread of germs, and when I am feeling under the weather which is rare I stay home so others are not affected. I am responsible on staying healthy and keeping others healthy.
Sub. Fem	Yng. Gen X	Married	Less 4 Yr	Unaf.	It takes decades to find vaccines that are effective. This one shows up in less than a year. I do not trust the government. They're using the general population as their laboratory. We saw what happened with the syphilis black man experiment. They may even put a tracer in it. Big brother is alive and well.
Sub. Male	Yng. Gen X	Married	Less 4 Yr	Unaf.	Coronavirus is a category of viruses. Common cold falls into that category. Scientists have worked on a vaccine for the common cold unsuccessfully for decades. These two viruses are 78% the same. You expect me to believe that this was done safely here in just 9
Urb. Male	Yng. Mill.	Married	Less 4 Yr	Unaf.	Don't trust it.
S Town Male	Old Gen X	Ref.	Less 4 Yr	Unaf.	Vaccinations give you the virus and hopefully I won't get it at all.

In your own words, please describe the reasons why you do not plan on getting vaccinated.

Region/Sex	Age	Marital	College	Party	Response
Urb. Male	Yng. Boom	Ref.	Less 4 Yr	Unaf.	It's a Farce! Everyone knows it! - Not Sure What it's use is for but it IS NOT to Help
Sub. Fem	Yng. Mill.	Ref.	Less 4 Yr	Unaf.	Don't trust it. It has been rushed & I don't feel comfortable putting it into my body.
Sub. Male	Gen Z	Single	Less 4 Yr	Unaf.	I am not at risk of dying or even suffering from it.
Sub. Male	Gen Z	Single	Less 4 Yr	Unaf.	Well I haven't bothered to get a check up at the doctors in several years so I dont think I'll find time to go in now.
Sub. Male	Old Boom	Single	Less 4 Yr	Unaf.	Fake plandemic
Sub. Fem	Old Mill.	Single	Less 4 Yr	Unaf.	It is available to me but I refuse to get the shot. The likelihood of me getting the virus and dieing is slim
Sub. Male	Old Mill.	Single	Less 4 Yr	Unaf.	Because I am healthy and strong and the government is a bunch of fools who don?t know what they are doing. Also, No one tells me how to live my life.
Sub. Male	Old Mill.	Single	Less 4 Yr	Unaf.	I don't need it?
Sub. Male	Old Mill.	Single	Less 4 Yr	Unaf.	I'm not sick I haven't had covid. I believe my immune system works just fine for being 30
Urb. Fem	Old Mill.	Single	Less 4 Yr	Unaf.	Because I am not a guinea pig
Urb. Male	Old Mill.	Single	Less 4 Yr	Unaf.	The reason that I choose not to be involved in the vaccination program, is honestly don't trust it. The reason I don't trust it is because my whole life I've been told by doctors there is no cure for a virus. now all the sudden doctors are conflicting saying that this will work for the virus even though there is nothing to cure a virus.
Urb. Male	Yng. Gen X	Single	Less 4 Yr	Unaf.	This is an rmna based vaccine. This has not been used in history. I believe in supporting our immune system through our bodies natural defense mechanisms.
Urb. Male	Yng. Gen X	Single	Less 4 Yr	Unaf.	Because of the DNA altering aspects of the injection. By definition it is not a vaccination.
Rur. Fem	Yng. Gen X	Married	Ref.	Unaf.	I don't get the flu shot either. I feel there are to many varieties of covid to take a vaccine for this one and there really has been time enough for a true study and side effects
