

**“Why do you believe you don’t need a COVID-19 vaccines? Other:”**

<b>Gender</b>	<b>Age</b>	<b>Party</b>	<b>County</b>	<b>Had COVID</b>	<b>Response</b>
F	18-24	U	Adam.	Yes	Not studied enough
F	41-50	D	Adam.	No	Vaccine injury previously
F	41-50	D	Adam.	No	I’m in heart failure. Don’t think I can take the possible side effects
F	55-64	R	Adam.	Yes	Dont like being forced to do something.
F	18-24	U	Arap.	Yes	Skeptical of the side effects
F	25-30	R	Arap.	Yes	Side effects of vaccine
F	41-50	R	Arap.	Yes	It's not a true vaccine and not FDA approved.
F	31-34	U	Broo.	Yes	COVID has a 99.8% survival rate - why is there even a vaccine
M	65-74	U	Broo.	Yes	Have medical contraindications
M	65-74	U	Delt.	No	Complete hoax, perpetrators will pay dearly
M	35-40	U	Denv.	Yes	It’s experimental vaccines not yet fully approved by the FDA
M	51-54	U	Denv.	Yes	It is not a vaccine, gene therapy
F	55-64	D	Denv.	No	Other health reason concerns
F	18-24	R	El Pas.	Yes	I don’t trust something that isn’t approved by the FDA
M	31-34	U	El Pas.	No	My lifestyle keeps me usually at home not being exposed.
F	35-40	D	El Pas.	Yes	I believe it was way over hyped and most of what went on was political and possibly biological war fare. I know several people that had Covid and only one serious case. My son was hospitalized due to pneumonia a few months ago - nothing Covid related. He briefly got sick while my husband and I were sick, a few days of fever and a little coughing. It even as bad as my husband and I and he had just had pneumonia. Our other six kids didn’t get sick. I believe in vaccines, but will not do HPV, flu or Covid for myself or kids. Illness happens, we can’t live in bubbles, that’s not life. I also think most Covid patients were not treated correctly or well, resulting in more deaths. I took my kids out of school due to them having to wear masks and believe the one benefit is so many parents now see how badly schools try to politically influence and indoctrinate their kids and hopefully more people like myself will keep their kids out of school and more people will homeschool.
F	35-40	U	El Pas.	No	I do believe that Vx are necessary I just don’t want to get it until I know what the actual side effects are. I believe we wont know for at least a year or two.
F	41-50	D	El Pas.	No	I don’t feel it is necessary

<b>Gender</b>	<b>Age</b>	<b>Party</b>	<b>County</b>	<b>Had COVID</b>	<b>Response</b>
M	41-50	O	El Pas.	Yes	The current vaccines aren’t approved
M	65-74	D	El Pas.	No	Cancer patient
M	51-54	R	Frem.	No	The “cure” is worse than the disease. This “vaccine” has zero long term studies and is only approved for emergency use by the FDA. I will not put mRNA into my body.
M	41-50	R	Jeff.	No	No interest in being a guinea pig for an unproven vaccine
F	55-64	U	Jeff.	No	99.9 survival rate, experimental vaccine, my immune system will respond as it should, Corona virus was unleashed to control citizens & create fear .... close our economy & tell use to use masks, completely wrong. Masks don’t work, follow the science. MSM & the Democrats in cahoots, Americans are on to thin, NO CREDIBILITY!
F	65-74	D	Jeff.	No	Effect of vaccine on my DNA
M	31-34	R	La Pl.	No	Too many long term affects are unknowns
M	55-64	D	La Pl.	No	I am immune
M	25-30	O	Larm.	No	I'll wait
F	55-64	R	Larm.	No	The vaccine is more dangerous than the risk of getting COVID.
F	55-64	U	Larm.	No	I don’t believe the virus is any different than any virus in decades past.
F	35-40	U	Mesa	Yes	I will not give my kids or myself an unproven vaccine with no long term data when it was like having a mild cold
M	55-64	R	Mesa	No	I believe that messing with our MRNA is experimental and could result in devastating effects
F	51-54	U	Rio Grn.	No	I don't believe the vaccine has had time to be fully safe and proven, like other vaccines have been.
M	35-40	U	Rout	Yes	THEY ONLY RECEIVED AN EUA FOR THE VACCINE BY DENYING THAT EXISTING THERAPEUTICS ARE EFFECTIVE! CHINA USED HUDROXYCHLOROQUINE AND FAUCI KNEW IN MARCH 2020! CRIMINAL!!
F	18-24	R	San Mg.	Yes	The vaccine has not been researched enough for me to feel safe getting it
F	55-64	R	Tell.	No	Don’t believe the vaccine has been adequately tested.

					Through study's and research you can clearly identify that all vaccine companies have publicly announced that they are in fact genetic modification companies. Also the list of chemical poisons in vaccines are more deadly than any "virus". Also the supposed covid 19 virus has never been isolated in a lab and koch's postulates has not and cannot be proven especially with a supposed virus that cant even officially be identified.
F	25-30	NR	Weld	No	
M	35-40	D	Weld	No	I believe I have a working imunie system as God gave me
F	41-50	R	Weld	No	Afraid of side effects
M	41-50	U	Weld	No	Don't trust Big Pharmaceutical or Government
