

“Being as descriptive as possible, please describe your experience with the COVID-19 virus.”

Gender	Age	Party	County	Vaccinated	Long Haul	Description
F	18-24	R	Adam.	Yes	No	Felt more like a sinus infection. Never had a fever. Maybe had 1-2 symptoms.
F	18-24	U	Adam.	No	No	Little headaches they would come and go and just a cough so minor I would cough just one time a day
F	35-40	R	Adam.	No	No	Wasn't bad at all, tired, lost smell and taste for few hours, headache. No fever.
F	41-50	D	Adam.	Yes	No	Very sore throat, tired, loss of taste & smell for 8 days, stuffed nose & a little cough.
M	41-50	O	Adam.	No	No	Dry cough for several weeks
F	55-64	R	Adam.	No	No	Ive had colds worse than this
F	55-64	U	Adam.	No	Yes	It was like a really bad cold or flu.
M	55-64	U	Adam.	No	No	Not good
F	65-74	D	Adam.	Yes	No	Tired and headache
F	18-24	U	Arap.	No	Yes	Deathly, I've never been so sick in my life. I laid in bed for over a week running 104° fevers, sick to my stomach, could not walk 5 feet without being out of breath.
F	25-30	R	Arap.	No	No	I had sinus infection symptoms but that was it
M	31-34	R	Arap.	NR	No	Had no problem when haveing covid, felt just like a cold.
M	35-40	R	Arap.	NR	No	This was horse shit. This was the biggest political ploy to spend all of our tax payers money we do not have.
F	41-50	D	Arap.	Yes	No	Fever, headache, loss of smell/taste. Sick for 5 days. Smell/taste returned in about a month.
F	41-50	D	Arap.	No	No	Had virus
F	41-50	NR	Arap.	No	No	Not too bad.
F	41-50	R	Arap.	No	Yes	I don't think it was Covid at all had a case of double pneumonia think it was classified as Covid.
F	41-50	U	Arap.	Yes	Yes	I got Pneumonia and required weeks of oxygen therapy. I ached everywhere as well as the difficulty breathing. I did not need a ventilator.
F	51-54	U	Arap.	Yes	No	Loss of smell/taste, feverish, overall achey and specifically achey in one spot on my lower back, too. Flu like. Fatigued
M	55-64	D	Arap.	Yes	Yes	2nd shot gave me a blood clot to brain, then a stroke 2 hrs later

“Being as descriptive as possible, please describe your experience with the COVID-19 virus.”

Gender	Age	Party	County	Vaccinated	Long Haul	Description
M	55-64	R	Arap.	Yes	Yes	Similar to the flu except for the extreme fatigue and shortness of breath
M	55-64	R	Arap.	Yes	No	Lost taste and smell but no other symptoms that I noticed
F	65-74	R	Arap.	Yes	No	Very sick with a terrible cough in February 1,2020 ! Missed two weeks of work !
M	18-24	U	Bold.	Yes	Yes	Sore, lots of taste
M	35-40	D	Bold.	Yes	Yes	Two weeks of discomfort and quarantine.
F	55-64	U	Bold.	No	No	I was sick for 5 days but got better.
F	31-34	U	Broo.	No	No	Barely any symptoms
M	65-74	U	Broo.	No	No	Less than a mild cold
M	65-74	U	Chaf.	Yes	No	It was equivalent to the flu as far as severity, or slightly less so. Longer recovery time.
F	25-30	D	Denv.	Yes	No	Light fever, fatigue, but mostly functional - I was able to continue working from home.
F	25-30	D	Denv.	Yes	Yes	I had a high fever and terrible body aches for a night, and then I was able to control my symptoms with DayQuil/NyQuil. It felt like a cold while I was taking medicine. Never lost sense of smell/taste. The virus stayed in my body longer than expected, as I still tested positive two days after having no symptoms with no medicine.
F	25-30	R	Denv.	NR	No	It literally just felt like a cold would not have gotten tested but I had to for work and I was surprised that the results were positive.
F	31-34	D	Denv.	Yes	No	I lost my taste, was exhausted, had extremely painful headaches, fever and chills
F	35-40	D	Denv.	Yes	No	Wasn't good
M	35-40	D	Denv.	Yes	No	Fever, chills, viral pneumonia, loss of sense of smell. 10 days. I caught it in late February of 2020.
F	35-40	R	Denv.	No	Yes	It was a bad cold and in my case not at all scary.
M	35-40	U	Denv.	No	No	I've had worse colds and flus
F	41-50	D	Denv.	Yes	No	Sick , but got through it.
F	41-50	O	Denv.	NR	No	Weakness and fever, lost sense of smell and taste

“Being as descriptive as possible, please describe your experience with the COVID-19 virus.”

Gender	Age	Party	County	Vaccinated	Long Haul	Description
M	41-50	U	Denv.	Yes	No	I was sick with a really bad unknown virus just prior to the official naming of COVID 19. A coworker who had traveled to Asia spread it around our office. Symptoms lasted a couple months. I did see a doctor who did not recognize the virus.
F	51-54	O	Denv.	Yes	Yes	PUKING, HEADACHES, BODY ACHES, MYE WHOLE BODY HURT..FEVER/ HOT ANN COLD SWEATS
F	51-54	O	Denv.	Yes	Yes	Low-grade fever, body and muscle aches, lost of smell, congestion, coughs, and low blood oxygen for a short period.
M	51-54	U	Denv.	No	Yes	Bad flu, 2 days down Zinc, amoxicillin D3, alkasetzer plus
F	65-74	R	Denv.	NR	No	Headache, fever, loss of taste and smell, body aches congestion. Typical flu like symptoms.
F	65-74	R	Denv.	NR	Yes	Tired, mild temperature for a week
F	41-50	D	Doug.	Yes	No	February before testing was available we all got sick. I was in bed for 4 days with a fever. A month later my daughter still had a cough but pediatrician said it was just allergies even though she doesn't have allergies. She said that the virus was not in the US.
F	41-50	R	Doug.	Yes	No	It was hell on wheels for 3 weeks. Very high fever, vomit and shifted to upper respiratory infections
M	55-64	R	Doug.	No	No	Extremely tired, nausea after eating.
F	65-74	R	Doug.	NR	No	Got sick and got over it.
M	55-64	D	Eagl.	Yes	Yes	Couldn't get tested. Received an antibody test later. Still wondering if there was any long term damage to lungs and general health
F	18-24	R	El Pas.	No	No	I currently have covid and feel as though I have the flu
F	31-34	R	El Pas.	NR	No	I felt a little sick but not really.
F	35-40	D	El Pas.	No	No	I had a week of off and on fever, chills, and bad body aches, and extreme fatigue. The second was extreme fatigue. Hard to even stay awake most of the time. My husband had the same but he also had a week of violent coughing after which I did not have.

“Being as descriptive as possible, please describe your experience with the COVID-19 virus.”

Gender	Age	Party	County	Vaccinated	Long Haul	Description
M	35-40	U	El Pas.	Yes	No	I am a healthy individual and I was able to defeat it as any illness you may get as well as my Parents who are in there 70's and sister who is a nurse. The Current leadership in Washington uses this as pandemic to further a Gross political Agenda as has Co by Following and ignoring the science and silencing those who brought attention to China releasing it. I am very dissapointed in my state and Current Federal Government.
M	41-50	O	El Pas.	No	No	ILI type illness. No big deal.
M	41-50	R	El Pas.	Yes	No	Bad headaches, loss of smell, exhausted, runny nose
M	41-50	R	El Pas.	NR	No	No worse than any flu I have ever had
M	41-50	U	El Pas.	NR	Yes	It was a joke, I had a couple of days of body aches, chills, and became tired and that was it. The flu was worse than covid.
M	55-64	R	El Pas.	NR	No	This is so overblown. Loss of taste and smell. It was like having a head cold.
F	65-74	R	El Pas.	Yes	Yes	Headache; no taste or smell and had brain fog for about 3 months
F	65-74	U	El Pas.	Yes	Yes	I have not been that sick ever on my life. I am an RN and handled it at he with virtual visits with my Dr. I felt at one time I would need care at the hospital!!! I was horribly ill missed 42 days of work!
M	25-30	R	Garf.	No	No	Same as or less than the flu. A complete political shenanigan from the start.
F	65-74	R	Garf.	No	No	Loss of taste and smell for 3 weeks.
M	41-50	U	Grnd.	Yes	Yes	Chest tightness. Reduced lung capacity. Headaches. Initial fever.
F	18-24	D	Jeff.	No	No	Mild cold symptoms
M	18-24	U	Jeff.	No	No	Just a lot of coughing, nothing too major.
F	25-30	D	Jeff.	Yes	Yes	I caught Covid from work in January. I had slight cold symptoms. I had zero taste or smell. My sense of taste is still fully back.
F	31-34	U	Jeff.	Yes	Yes	Bad headaches, shortness of breath, loss of taste and smell, hot flashes, fever, sore throat
F	35-40	U	Jeff.	No	No	It was a 6 day minor cold for me. My husband was asymptomatic. We quarantined for our 10 days & was done with it.
F	41-50	D	Jeff.	Yes	No	Like sever flu for 10 days

“Being as descriptive as possible, please describe your experience with the COVID-19 virus.”

Gender	Age	Party	County	Vaccinated	Long Haul	Description
F	41-50	U	Jeff.	Yes	Yes	I had it before they had testing for it. I went to the emergency room twice and both times they told me I had pleurisy and sent me home.
M	41-50	U	Jeff.	Yes	No	Loss of taste, low energy, bad cold, long lasting cough
F	55-64	U	Jeff.	Yes	No	Super fatigued with other symptoms showing up at 6-8 weeks after, like shortness of breath
M	25-30	D	Lake	Yes	Yes	It sucked.
F	25-30	U	Larm.	NR	No	This is silly
F	35-40	U	Larm.	Yes	No	Coughing, fever/chills, body ache, chest ache, sore throat, sneezing, fatigue that lasted weeks
F	41-50	D	Larm.	Yes	Yes	Worst headache of my life for 14 days, loss my sense of taste and smell for at least 8 days and they still aren't right (I had Covid in early December...so six months later they are still not 100%), my heart rate was 130's walking from my bed to my toilet which is right outside my bedroom, extreme exhaustion for two weeks. It was awful.
F	55-64	D	Larm.	Yes	No	I'm a PA-C. My MA came to work when she wasn't feeling good, didn't tell anybody for several hours. She infected me. Just a little diarrhea. No other symptoms.
F	55-64	U	Larm.	Yes	No	I tested positive in September during weekly testing. I had no symptoms and felt totally depressed due to isolation. The isolation was extremely hard emotionally!!!
F	55-64	U	Larm.	NR	No	It was a tiring but not very bad cold that didn't last long.
M	55-64	U	Larm.	NR	No	Just another flu....
F	41-50	R	Logn.	NR	No	Just allergies
F	55-64	U	Logn.	Yes	No	It was in my head. Similar to a head cold but with a running nose and headache. Lastered a week.
M	18-24	U	Mesa	Yes	No	I felt light headed and I'll for a day, but that was it. Very mild symptoms.
F	35-40	U	Mesa	No	No	I only lost my smell.
F	65-74	D	Mesa	Yes	Yes	2 weeks of hell..loss of work, exposed 3. Co workers so they had to quarantined, and I got very sick.

“Being as descriptive as possible, please describe your experience with the COVID-19 virus.”

Gender	Age	Party	County	Vaccinated	Long Haul	Description
F	41-50	D	Montr.	Yes	Yes	I lost my sense of smell and taste and felt like I had something like a bad cold.
M	55-64	D	Montr.	NR	No	Two weeks of absolute exhaustion, just like any other flu or virus
M	51-54	R	Park	Yes	No	Fatigue and dry throat
F	25-30	U	Prow.	Yes	No	I contracted it twice, the first time I had flu-like body aches, cough that lasted a month, and fatigue. The second time I lost my sense of taste and smell. It took about 2 months for those senses to come back in full.
F	65-74	U	Pueb.	Yes	Yes	Like the worst flu I ever had
M	35-40	U	Rout	No	No	Was like a mild flu. The Govt ruined MANY MORE LIVES WITH LOCKDOWNS. This whole thing was so corrupt, it's hard to imagine this actually happening in America. We should NEVER take away freedom to operate or visit businesses EVER AGAIN! There must be investigations and criminal charges of all involved in pushing lockdowns and now DANGEROUS NON-FDA APPROVED VACCINES FOR KIDS. 5,000 deaths admitted due to vaccines now in the US. How many weren't reported? The vaccines are MORE DANGEROUS TO CHILDREN THAN COVID ITSELF! CRIMES AGAINSR HUMANITY!!
F	18-24	R	San Mg.	No	No	Fever, sore throat, cough, sinus congestion, headache, diarrhea. Symptoms have lasted a full week
F	41-50	O	Summ.	Yes	Yes	6 weeks of systemic low o2 symptoms, 2 days of fever, full body rash.
F	65-74	D	Summ.	Yes	Yes	I had experience of illness before the USA released any warnings(December/January 2019-20). Thought it was heart episode- fatigue, vertigo, headache, breathing difficulty. Saw heart doctor and heart checked out okay but oxygen was problem.
M	18-24	U	Weld	Yes	Yes	It didn't do a fucking thing, doesnt matter
F	35-40	O	Weld	Yes	No	Body aches, small fever, chills and i couldn't smell or taste for 3 days.
