

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
F	18-40	1	High	Home	Because of covid how are the students supposed to social distance
F	18-40	1	Elem	Public	CRT.
O	18-40	1	Elem	Public	Leave politics out of education. Period.
M	18-40	1	Elem	Public	Masking kids. CRT?
M	18-40	1	K	Private	Public education has turned into indoctrinating our children into a certain way of thinking that I find abhorrent.
F	18-40	1	K	Public	The local school is bi-lingual and teaches some subjects only in Spanish. I was told by the school that my child would have difficulties if we don't speak Spanish at home. Now we take the extra time to drive him to a school that he can understand the language being spoken for all subjects. Mask mandate is not ok. My son says he can't breathe. It should be a family choice whether to wear a mask or not.
M	18-40	1	Elem	Public	The mask mandate is something which shouldn't be mandated. This needs to be a choice. There is no research supporting the effectiveness of masks for children. Most notable is the research for a 2015 study showing that cloth masks, which the majority of kids wear, show little to no protection. Secondly, critical race theory should not be taught in schools. Correct history and how we have learned from it, yes teach that.
F	41-54	1	Elem	Private	"On the wrong track" is too harsh. I don't believe my child would have his educational needs met by our public schools
M	41-54	1	Middle	Private	COVID response is BS
M	41-54	1	High	Public	High stakes pressure from testing and increased demand/scope for teachers jobs
F	41-54	1	High	Public	I do not believe that face masks should be needed in schools. I disagree 1000% that the vaccine should be pushed on our kids that's only meant to bring back segregation, we all know the masked are useless and can be harmful. CRT, Should Not Be a Topic of conversation. However, the likely hood the teachers will actually go along with it inside there class, is pretty slim. We all still need to eat, so I'll support them.
F	41-54	1	Elem	Public	I'm concerned about requirements/expectations that kids and teachers are going to be in masks the whole time. I really didn't want my kids to be returning to a weird school situation that may cause them to dislike school. Sigh. We parents and kids had such a tough year last year, we all desperately need a normal school year this year. I am trying to be understanding about the need to protect people from the virus, I also hope officials will take into account the mental health harm and long-term educational harm if we don't prioritize having kids in school— and — in school environments that are good.
M	41-54	1	High	Public	Not focused enough on learning, teaching history and math. ... And this new stupid math...
M	41-54	1	Elem	Charter	Not requiring masks for students

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
F	41-54	1	High	Public	Teaching liberal politica
F	41-54	1	Elem	Private	The DPS school board has no leadership and has members like Mr Anderson who do not have what's best for the children at the forefront of their decision making.
F	41-54	1	Elem	Public	The kids need to remain at home. HOME SCHOOL
M	41-54	1	High	Public	There is very little opportunity for, or tolerance for, my child's politically conservative views. She is in the closet over being a Republican or having supported President Trump. Literally, her physically wellbeing was at stake over this issue. Critical Race Theory is being considered, BLM (a political not just social justice) org was part of her daily classroom conversations, etc.
O	41-54	1	Middle	Private	They have difficulty making decisions in the best interests of the students.
O	55+	1	Middle	Private	Masks, CRT, run by Unions, poor curriculum, Englewood schools have poor ratings
F	18-40	2	High	Public	Far too interested in teaching theory's vs history. You must learn true history so we do not repeat the past.
M	18-40	2	Elem	Public	I don't think the kids need to be wearing masks.
M	18-40	2	Elem	Public	Ideologies have far too much weight in what is taught in the schools. Both from the schools as well as the individual teachers.
O	18-40	2	Elem	Other	Kids don't need to be masked!
M	18-40	2	High	Public	Losing focus on more important matters.
F	18-40	2	Elem	Public	Making kids wear masks and quarantine.
M	18-40	2	Middle	Public	Making our kids wear masks. And teaching CTR. Not only that WE ARE NOT GONNA LISTEN TO YOU! We have a 100% success rate in America for taking down malarchy like you. And we will flip this whole world around. We will start from our communities. No more masks. We do not listen to you.
F	18-40	2	Elem	Public	Masks are not mandated. I am worried that I will be home with quarantined kids too much of the year. We masked last year and it is the fewest illnesses we have ever had. Masking should be mandatory, esp for Elementary age kids who do NOT have access to a vaccine yet. My kids didn't care about having to wear a mask in class.
M	18-40	2	Elem	Other	No masks with Larimer County is high risk again.
O	18-40	2	Elem	Public	Revising history, requiring masks.
F	18-40	2	Elem	Public	The schools board is over reaching in making decisions about my students' health without my consent.
F	18-40	2	Elem	Public	The Thompson school district is not having a mask mandate. Masks are the key to prevention!
F	18-40	2	K	Public	They went back to requiring masks for my 3 and 5 year old. Not happy

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
M	18-40	2	Elem	Home	Topics of concern include Critical Race Theory, transgenderism/non-binary gender education (sexualizing minors), climate alarmism/activism (environmentalism is fine, alarmism is not), anti-American hate teachings. Merit-based progress still seems prevalent in my area, but lack of it in the future is a concern. Propaganda masquerading as science is a concern.
F	18-40	2	High	Private	Trying to teach for testing more than for the education of each student.
F	41-54	2	High	Public	CRT as well as gender studies nonsense. Basically all of everything they seem to be doing now is bordering on insanity.
F	41-54	2	Middle	Public	Extreme liberal agendas, too much focus on social issues, at the expense of academics
F	41-54	2	High	Public	I feel that they need to teach and prepare students for the real world. More classes on cooking, paying bills etc. and focus on trades instead of so much college oriented things
F	41-54	2	Middle	Public	I think schools should be off utmost importance. They should always stay open. I also feel schools should be smaller to give students more personal attention, so they have the opportunity to feel connected, and that there is the comfort of a small village.
F	41-54	2	Elem	Private	Lack of funding causing overcrowded classroom sizes with few too many teachers.
F	41-54	2	Middle	Public	Mask are mandated
F	41-54	2	High	Public	Masks and covidn
M	41-54	2	Middle	Public	Not enough funding
F	41-54	2	High	Public	Our schools have become more political than fact based and do give my children facts and unbiased information. Online school has had a devastating effect on my children and I will be looking into private school.
F	41-54	2	High	Charter	Public schools are govt and politically run and nothing runs well by the government.
F	41-54	2	High	Public	Slightly, Keep kids in school longer with k-12 masks. Require COVID + students be reported and monitor for possible Quarantine situations.
F	41-54	2	High	Public	The kids are way behind in the public schools now because of how covid was handled.
F	41-54	2	K	Public	The public school system should allow the mask to be an option instead of required
F	41-54	2	Elem	Public	Their current response to Covid 19 is disappointing. They do not pay their teachers enough compared to surrounding districts.
O	41-54	2	High	Public	Too leftist and liberal. Need to teach kids to think critically and for themselves
F	41-54	2	High	Public	Unscientific measures such as masking and testing that are proven to be adverse to children's health and unreliable. Unscientific discrimination against unvaccinated students.

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
M	55+	2	High	Public	I feel that the serious nature of the pandemic is not being addressed as such. I would like to see balanced learning about history such as why a certain event had both positive and negative outcomes. Social issues are similar.
M	55+	2	High	Home	Teachers are uneducated communist skills . The school system is corrupt and a communist indoctrination factory
F	18-40	3	High	Public	Curriculum are not keeping up with the times. Money building new schools should have been used to maintain schools from the beginning and not have waited so long that now we need to build new schools.
F	18-40	3	Elem	Home	Government has to much say over what our children learn
F	18-40	3	Elem	Charter	I believe they aren't creating an environment for the natural love for learning that kids have. Instead they create many rules and restrictions that just make kids obedient rule followers.
F	18-40	3	Elem	Home	I disagree with masking and don't like public school philosophy in general. I also think doing work on screens is a terrible idea.
F	18-40	3	Middle	Public	I don't like they're learning common core math
F	18-40	3	Elem	Public	I don't see many kids wearing masks. And my kid says the others don't wear them inside.
F	18-40	3	K	Private	So many reasons... my children will never attend a public school in the state of Colorado. I disagree with vaccine mandates, mask mandates, instilling children with fear around cold, social distancing rules, public school cafeteria lunch quality, too many children in a class... turning children into clones for the working class.
M	18-40	3	Elem	Charter	Social outreach and a focus on the arts could have more to do with our curriculum
F	18-40	3	Elem	Public	They don't communicate with the public and they care more about the politics of school than the students
M	41-54	3	Middle	Public	A strict coddling to the teachers union is becoming destructive to the education of all students in the district as well as nation wide.
F	41-54	3	Middle	Home	District 60 in Pueblo Colorado is a horrible school district. From the bullying that goes on in school to the teacher's twerking at dances and fighting outside of schools and letting their children pistol whip the person they're fighting. The teachers set horrible examples for the student.
F	41-54	3	Middle	Public	I live in one of the least vaccinated counties in Colorado. The school district has no mask mandate, no vaccine mandate, and in person learning.
F	41-54	3	High	Charter	Lack of facial expression seen by kids is effecting their overall acceptance and belonging. No one looks at each other any more.

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
F	41-54	3	Middle	Home	Never thought we would be homeschooling. We started in second grade due to lack of gifted and talented programs. GT students are a minority and it is total discrimination. All the funds go to to ESL. Now with COVID and mask mandates we are thrilled to homeschool. CRT... public schools have been headed in the wrong direction for a long time.
F	41-54	3	Elem	Public	No Covid protocols. No mask requirements of staff or students and no vaccination requirements. Yikes. Since I can't vaccinate my 9 year old...
M	41-54	3	High	Public	No more masks and zooming!
F	41-54	3	High	Public	Pushing political views on students and punishing those that do not think the same.
F	41-54	3	High	Public	School quarantines and shutdowns despite abundant evidence of the damage it would cause. Critical race theory. Bad school boards. Expression of political opinions vs teaching critical thinking. Poor scores. In the western slope, emphasis on sports vs academics, and producing college bound kids
M	41-54	3	Middle	Public	Students individual academic and mental health needs are being overlooked. Students in the same grade have different needs. We need more levels of learning within each grade. We also need more focus on supporting the proper social and mental health environments. Kids need greater access to counselors and more group/ team building activities. This should be a part of the curriculum. Team building encourages respect and compassion for others, and allows an individual to feel safe in and connected to the community around them.
F	41-54	3	High	Public	Teachers don't get paid enough. Don't have good quality teachers. No housing available to retain teachers
O	41-54	3	Elem	Public	The constant testing, not getting rid of bad teachers, teaching my kids about homosexuality, and crt. All the schools are there to do is teach reading, writing, and arithmetic. I wish schools still had available civics class, but they don't.
F	41-54	3	Middle	Public	The education is poor and parents are excluded
M	41-54	3	High	Public	They do not put effort into extra curricular activities. They put no effort in sports. I feel sports and extras help reward scholars excel.
M	55+	3	K	Public	I think masks should be mandatory at n elementary schools and maybe all schools to attend
M	55+	3	High	Public	No masks, no social distancing, no case tracing, no regard for public safety
O	18-40	4	Elem	Charter	Critical Race Theory. Gender Equality in Sports (boys are NOT girls). COVID Mandates. Lack of support and investment into teachers

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
F	18-40	4	High	Public	Douglas County is a very frustrating county to live in and send our kids to school in. So much so that we are sending my younger daughter to a private school in Denver. My oldest has only 4 years left in Douglas County or we would move her as well. The views against teaching Critical Race Theory are so disheartening. I truly feel as though the students here will be getting a subpar education at best, riddled with an inaccurate view of history. Pair that with the absolute ignorance about COVID and mask-wearing and we are eager to be done schooling in this particular county.
M	18-40	4	Elem	Public	Mask mandate would force us to take our children to a private school because we, like most people here, have the means to pay for it.
F	18-40	4	Elem	Public	Masks should be mandated for all students especially the younger ones who don't even have vaccination offered yet.
O	18-40	4	Middle	Other	Most of the in-person schools i feel are not using time wisely when is come to teaching
F	18-40	4	Elem	Charter	Our district caters to the low end of our educational demographic and doesn't need the needs of the students that excel. We also our backward in right to choose parent choice and the upcoming gender neutral bathrooms are not OK with me.
M	18-40	4	Elem	Public	Teach them facts and skills. Don't teach them opinions or push agendas.
F	18-40	4	Elem	Public	The superintendent doesn't care for her employees and "let go" years of experienced teachers and subs
M	18-40	4	High	Public	There needs to be NO Covid closures and NO Mask mandates this year
M	18-40	4	K	Private	Using kids as guinea pigs and not mandating faculty to be vaccinated to protect the kids.
M	41-54	4	Middle	Charter	Teaching about racism - Teaching and encouraging homosexuality and all the letters - encouraging multi gender thinking and practice - Re-writing historical facts to fit modern day political opinion
M	41-54	4	Middle	Public	Crazy masking and crazy talk about vaccination. I would take my kids out of school altogether but I pay a taxes and she wants to go to school.
M	41-54	4	K	Private	Critical race theory. Forcing students to wear masks when the science doesn't support it. My spouse is a health professional. We are neck deep in the science of the virus. Here's the biggest problem with public schools to keep this short: Where is the leadership? Who is standing up for the kids? I don't see it. Too much politics and too little leadership. The public schools are a joke.
M	41-54	4	Middle	Charter	Equity Policy being implemented
F	41-54	4	High	Charter	High school kids can't do simple math in their head. So many students are not pursuing higher education in the medical and engineering fields.

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
O	41-54	4	Elem	Charter	I feel public education is now nothing more than a political indoctrination tool.
M	41-54	4	High	Private	Poorly qualified math and science teachers.
M	41-54	4	High	Charter	Push a radical liberal agenda combined with heavy illegal alien and gang influence makes them ineffective as learning institutions... I pulled my kids out. Horrible compared to, when I went to school.
F	41-54	4	High	Public	Students should not be required to wear a mask at school
F	41-54	4	Middle	Public	There's never enough funding for better classrooms for teachers to expand their teachings to students
F	41-54	4	High	Public	They are not dealing with DEI issues in a substantial way. The BOE is heavily influenced by those who fear masks, CRT, and other "political" issues.
M	41-54	4	High	Public	They spend more time watching movies and playing on their cell phones than learning. They take retests until they get the "A". If they don't do work they still get a 50%. There is no accountability. Last year the teachers hardly interacted. Why didn't they do zoom and video lectures daily. Most just assigned work and then never did video lectures.
F	41-54	4	K	Charter	Young children should NOT be required to wear masks. The emotional outcome of forcing them to is detrimental!
F	18-40	5	Middle	Public	Application of principles of critical race theory
F	18-40	5	K	Private	Critical race theory is racist. Kids shouldn't have to wear masks given they're at no risk. Teachers unions are garbage. The LGBTQ agenda doesn't need to be taught.
F	18-40	5	High	Other	I do not want to send my children to school to wear a mask, be bullied into wearing one, talk about vaccines for covid, or be indoctrinated by critical race theory.
F	18-40	5	Elem	Public	Masks are not mandatory nor is the covid vaccine for eligible school aged children. I personally think they should have pushed back the start of school until after k-5th graders could get vaccinated. 20% of all covid cases are juvenile cases and that number is raising. Normalcy is not worth these children's lives.
F	18-40	5	Elem	Charter	Masks should not be mandated for schools and critical race theory should not be brought to schools
M	18-40	5	K	Public	No masks during the pandemic
M	18-40	5	High	Charter	Poor education track record, kids are struggling to grow into well rounded people.
F	18-40	5	Middle	Public	Safety should always come first
M	18-40	5	Elem	Charter	The public school system in this town more so resembles a glorified day care than an educational institution. However there are a few teachers and principals that are an exception.
F	18-40	5	Elem	Public	We need a mask mandate. Nothing is more important than protecting the safety of our children, who cannot be vaccinated at this time. Optional masking puts them at unnecessary risk.
O	41-54	5	Elem	Charter	1. Masks 2. Common Core

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
O	41-54	5	Middle	Private	Class size and to pc
M	41-54	5	High	Home	Common core; CRT; extreme political agendas
M	41-54	5	Middle	Public	Critical Race Theory, teaching that boys will be girls, untrue history, and etc. I could go on and on.
F	41-54	5	Middle	Public	Have had issues with the way that they chose to deal with somethings. My child is going to a different school district
F	41-54	5	High	Public	I think my children do not need to be concerned with politics or any liberal perspectives.
O	41-54	5	K	Public	Masking students & LGBT books & instruction. .
O	41-54	5	Middle	Public	No mask mandate
F	41-54	5	Elem	Charter	Not taking precautions for Covid at all, putting student tests above health
M	41-54	5	Middle	Public	Our teachers in this town work for absolutely nothing! It pathetic when a gas station worker can pull in more than and educator with loads of education!
F	41-54	5	K	Public	Political correctness vs learning
M	41-54	5	High	Public	Seem to be driven by culture rather than education
O	41-54	5	Middle	Charter	Stop concentrating on critical race theory and propaganda and teach them how to read and do math if your students know your political ideology then you are a shitty teacher
M	41-54	5	Elem	Public	They need to require vaccines for teachers and masks for students, currently it sounds like neither will be required.
O	41-54	5	Elem	Public	Too many assessments
O	41-54	5	High	Public	Values, morals, future skills, financial planning, pushing beliefs and saying other beliefs are not true. God not allowed. Push COVID
M	55+	5	Elem	Public	There not teaching kid's things that they will need to deal with the true things that are happening in the world
F	18-40	6	K	Public	Aurora Public Schools are underfunded and way behind districts attracting better money, such as Littleton or Cherry Creek. Those kids, AND teachers, deserve better.
F	18-40	6	Middle	Public	Critical wave theory curriculum and leaning towards a mask mandate.
O	18-40	6	K	Charter	CRT, mask and EAU mandates, hybrid learning, Pronoun changes for students, the indoctrination happening with our children is sickening.
F	18-40	6	High	Public	I feel like parents, uncomfortable with sending their kids back to school are being bullied into doing so. Kids are being told they don't have to wear masks. This is ludicrous.

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
F	18-40	6	K	Home	I think parents in general have relied too much on teachers/schools to parent for them and so schools have stepped in to be parents, including usurping parental rights regarding gender identity, morals, and virtues.
F	18-40	6	High	Public	Masks should be
M	18-40	6	Elem	Home	No focus on classical education, no child left behind policies, critical race theory to name a few
F	18-40	6	Middle	Private	Not putting kids first with in person learning and teaching things that should be left up to the parents decision on when their child is ready to learn (sex education specifically). And pushing personal agendas.
O	18-40	6	High	Home	Poor communication, no transparency of what is taught in classroom, misuse of funds
F	18-40	6	Elem	Charter	Poor curriculum, low funding, behavior issues
M	18-40	6	Elem	Public	Shifting focus of contemporary school curriculum
M	18-40	6	High	Home	The public schools are not teaching neutral positions regarding history and race. They are exposing children to adult issues at too early or an age.
M	18-40	6	Elem	Public	They are not taking CDC recommendations seriously and not implementing safety precautions that follow the CDC recommendations to keep my child safe from the Delta variant.
F	18-40	6	Elem	Charter	They aren't requiring masks, no distancing, nothing. Kids can't be vaccinated yet.
F	18-40	6	K	Private	They teach critical race theory, which is so wrong. Mandatory vaccines are also wrong. our students should not be thrown into political Wars
F	18-40	6	Middle	Public	We need to teach things we can use in life not bs like racism against certain colors ie..Caucasian.
F	41-54	6	High	Public	1. Covid Kabuki theatre, to appease the teachers unions. 2. Focus on "equity" at the expense of excellence.
M	41-54	6	Elem	Private	Critical race theory and politics that are liberal
F	41-54	6	Elem	Home	CRT Common core LBGQT etc
M	41-54	6	Middle	Public	Focus on the basics not social justice BS. Teach my kid percents, how loans work, grammar, etc
F	41-54	6	Middle	Public	I believe face masks should be required during this time of spiking COVID-19 cases. I would look forward to removing the mask mandate when public health officials deem it safe to do so.
M	41-54	6	High	Public	I don't have enough room in this box
F	41-54	6	Middle	Home	I got an email saying that the adults (teachers and admin) would not be required to be vaccinated OR wear masks, around children who can't be vaccinated. They must be crazy. I unenrolled her immediately.
M	41-54	6	Middle	Public	I think all kids should be home schooled until the delta variant is no longer a threat
M	41-54	6	Middle	Public	Kids need to be taught how to learn and not just learn how to take standardized tests. They need more time to explore and be creative and inquisitive. Food at school is pretty bad as well.

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
F	41-54	6	Elem	Home	Lack of funding has created a lack of helping children reach higher potential. Schools are working hard! It comes down to the money.
M	41-54	6	Middle	Public	Leftism is totally destroying public education. It's literally almost become dangerous, or an act of child abuse to send your children to public schools anymore.
O	41-54	6	Elem	Public	Leftist politics injected into elementary school curriculum taught as fact rather than the insane opinions/delusions of mentally ill people angry that reality isn't molded by pretending
F	41-54	6	Elem	Private	Need to spend more on facilities and teachers, less on admin
F	41-54	6	Middle	Charter	No mask mandate.
F	41-54	6	Middle	Other	Teachers are being told what to teach based on curriculum. I don't agree with CRT or the changes in Curriculum that go along with this. I also don't agree with children wearing masks
M	41-54	6	High	Public	The liberal left agenda
F	41-54	6	High	Charter	They are more concerned with putting kids In The classroom than they are with student or teacher safety.
F	41-54	6	Middle	Public	They are teaching CRT, asking kids for their pronouns, etc.
F	41-54	6	High	Charter	They seem to have very little, if any, understanding regarding the profound challenges of special needs, 2e, low income children or families and how poorly the actual Administration of Aid is or has too long been in Arapahoe County. Children too with ptsd or trauma aspects we have heard numerous concerns regarding too much Pharma blurred with the school shooting drills and realities too which have occurred...Kids feel unheard tho too somehow too afraid too to address. It feels that a plan B regarding Mental Health assist outside of "medication services" needs to be offered...504 aspects and Rights too might need better support or training/education to staff(s)? My high GT son had been nearly three years in acceleration and something so traumatic happened to him at Euclid that he met me curbside on Christmas with tears streaming requesting immediate homeschool. I had too been rendered Disabled and had ER trips happening and they seemed to not understand how that would affect my ability to drive my child to school or perform during???
F	41-54	6	High	Charter	We were silenced.
M	55+	6	Elem	Public	Children are not taught enough of our history, traditions nor responsibilities as citizens of our great nation. Instead, in large part, they grow up as privileged people who expect others to make the sacrifices for them and our nation.
F	55+	6	High	Public	To intrusive as far as the family is concerned the parents should have input
F	18-40	7	Elem	Home	At this point it's all about what agenda to push and I just don't agree with them. Some of the policies being used would not allow my child to reach her full potential.

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
F	18-40	7	High	Public	Conflicting COVID guidelines, requesting excessive amounts of supplies that are returned back to families every year, lack of communication and funding
M	18-40	7	K	Home	Curriculum overly focused on politically motivated indoctrination (LGBTQ, Anti-police, sexuality). Lacks basic subjects like Civics
F	18-40	7	High	Other	I believe the schools have forgotten their role. TO TEACH OUR KIDS BASIC FUNDAMENTALS REG SCIENCE, MATH, HISTORY & ENGLISH. ANYTHING and I mean ANYTHING outside of those topics ie. CRITICAL RACE THEORY IS NOT YOUR JOB!! WE RAISE OUR CHILDREN NOT YOU.
F	18-40	7	Middle	Public	I think forcing masks or vaccinations on children is wrong in every way. At this point It should be 100% at the parents discretion. It is not our children's job to protect the vulnerable or the unvaccinated. We have already been through 18 months of these harsh regulations and they are hurting our children badly. Things need to go back to normal so kids can get the most out of their education. And parents who disagree should have every right to keep their kid home or send their kid to school in a mask.
F	18-40	7	High	Private	Leftist agenda taught in the classrooms
F	18-40	7	High	Public	Mask mandates, constant covid tests for unvaccinated students and high teacher turnover.
F	18-40	7	Middle	Public	Math to start is very frustrating. There is a HUGE disconnect from what parents learned to what the children are using now. In real world situations there is no reason to teach math the way it is being taught. In 7th grade the social studies part of the childrens curriculum was very biased and discussed politics way to much for a child who isn't voting. This made teachers, friends and other students turn on each other as if it was not okay to have different view points.
F	18-40	7	Middle	Public	Not enough emphasis on core curriculum. Less test taking skills are needed.
M	18-40	7	Elem	Public	Rushing back into the school district just when they're going to go back to online learning is pointless. My school has teachers that don't care at all even during the school year when there was no pandemic we had issues
M	18-40	7	Middle	Public	School uniforms for a public school. No help for Special ED
F	18-40	7	High	Home	There is no support for neurodivergent students, allowing targeted harassment and bullying and punishing victims. There is no box that fits all kids.
M	18-40	7	High	Public	They are requiring masks for students and especially teachers with absolutely no scientific rationale. Stop with this dehumanizing tyrannical communism.
F	18-40	7	K	Home	They are too much unnecessary progressive propaganda and teach stopped teaching necessary basics, i.e early American history, national anthem, pledge of allegiance, cursive, etc.
M	18-40	7	High	Charter	They are under funded and the kids have no discipline

Colorado 2021 Education Issues Survey

"Please describe the reasons why you think public schools in your area are off on the wrong track."

Sex	Age	CD	Grade	School	Response
F	18-40	7	Elem	Home	Too much emphasis on standards/testing and not enough on teaching, too many disruptive students, not enough recess or movement opportunities.
M	18-40	7	Elem	Public	We need more emphasis on core subjects and post graduation launching into either the trades or college.
M	41-54	7	Middle	Public	CRT, mask mandates, politicizing everything that shouldn't be a topic in our school system with young kids, even most high schoolers.
M	41-54	7	High	Public	I don't want my children exposed to any anti American propoganda or covid hysteria.
F	41-54	7	High	Charter	Mandating masks, removing history from being taught and teaching things I do not agree with or support
M	41-54	7	Elem	Public	Masks are not mandatory for students.
M	41-54	7	Middle	Public	No masks! No evidence that cloth masks even prevent transmission of covid. What is the end point? When vaccines are available to kids and parents still don't want them for their kids, then what? Isolation and ridicule until we comply? This is crazy. Any adult who wants the vaccine can get one. They are widely available.
F	41-54	7	High	Public	Schools should be requiring masks
F	41-54	7	High	Public	Started off with the focus on keeping kids safe and in school. Caved to pressure and the focus fell off safety
M	41-54	7	High	Public	Stop abusing the children! Masks are bacteria infected and clearly useless. Children should NOT be required to wear a mask!!!
O	41-54	7	High	Public	Teachers unions are becoming modern day brown shirts, indoctrinating kids to socialist, marxist & CRT lunacy and failing miserably at teaching basic math, english, science & history. Quit now.
M	41-54	7	Middle	Charter	They don't consider real-world pure reviewed science when it comes to the world of masking and pushing a vaccine that is still experimental on our kids
F	41-54	7	High	Charter	Too liberal.
F	41-54	7	High	Public	We need to focus on education and not all the bs.
