2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
F	65+	D	N	Adams	Very helpful in figuring out issues. With animals and human health
M	35-44	O	N	Adams	It'll help make certain tasks easier, and it has a lot of potential to solve problems we don't understand ourselves.
M	35-44	R	N	Adams	Makes things fast and easy
F	65+	R	N	Adams	It is the future . The AI-bot I chatted with about octopus, was very warm, comfortable and informative. I enjoyed it very much. Other things, like knowing my every search on Google, my buying habits etc seem excessive and invasive.
M	45-54	U	N	Adams	Access to info made easy with explanations that fit in your specific level of understanding
M	55-64	U	N	Adams	New technology that can help solve long awaited problems.
M	65+	U	N	Adams	Assists me with writing
M	35-44	D	Y	Adams	Sometimes useful
F	65+	D	Y	Adams	It does my electronic clinical notes in my business. It takes care of group notes as well.
F	35-44	R	Y	Adams	Unbiased info at your fingertips
M	65+	R	Y	Adams	Because it's an extremely fast and accurate research tool
M	35-44	U	Y	Adams	Allowed me to start a company, allowed me to be 10x more productive at my full job, helped me with a million personal projects. Assisted in helping my dad get advanced care and surgery for cancer.
M	45-54	U	Y	Adams	It is convenient for many occasions however it isn't helping students learning. The kids are dumber due to abusing the technology.
M	65+	U	Y	Adams	I have used it quite a bit for my job search. It helped me a lot with preparing for my interviews
F	45-54	D	N	Arapahoe	I enjoy using it and feel it could be a good source of information. I fear the cost to the environment and water uses to keep cool. The drainage into our soil and water.
M	45-54	R	N	Arapahoe	It's faster and more accurate than Google
M	55-64	R	N	Arapahoe	We need ai to compete with world market
F	65+	R	N	Arapahoe	Will help our medical providers to find cures. Will help in a lot of other area and open up new job opportunities.
M	18-34	U	N	Arapahoe	Necessary to stay up to date and current with today's life.
F	35-44	U	N	Arapahoe	Helpful, easy provides information to the user
M	55-64	U	N	Arapahoe	Definitely helps with knowledge on as needed topics from car repair to various topics as needed
M	55-64	U	N	Arapahoe	Helps with productivity and answering questions
M	65+	U	N	Arapahoe	Easy access to information
M	65+	U	N	Arapahoe	Seems like it could be a useful tool.
M	35-44	D	Y	Arapahoe	It streamlines tasks and is efficient.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	45-54	D	Y	Arapahoe	The information is good and it's fun to use
F	55-64	D	Y	Arapahoe	It is a quick way to accomplish simple tasks that used to take a long time
F	65+	D	Y	Arapahoe	Fast way to plan trips, organize info and set goals
M	65+	D	Y	Arapahoe	Use for my research interests
M	35-44	R	Y	Arapahoe	Useful and saves a lot of time
F	45-54	R	Y	Arapahoe	Useful
M	45-54	R	Y	Arapahoe	AI is the devil, but it's clearly here to stay.
M	55-64	R	Y	Arapahoe	It makes mundane tasks less bothersome.
M	65+	R	Y	Arapahoe	It gives you quick answers. Help with health), history, travel. Everything.
M	65+	R	Y	Arapahoe	AI deals with facts and separates emotion.
M	18-34	U	Y	Arapahoe	AI advances society. It simplifies tasks and allows especially simple tasks to be automated.
M	45-54	U	Y	Arapahoe	I think llm are a good tool for research
M	45-54	U	Y	Arapahoe	It’s an accelerator of my productivity
M	45-54	U	Y	Arapahoe	Improves productivity and help streamline processes with govt agencies
F	55-64	U	Y	Arapahoe	I learn more by exploring topics I wouldn’t normally look at. I am more productive with my time. And if we don’t lead with AI someone else will. I would rather be at the front instead of behind.
F	55-64	U	Y	Arapahoe	It’s the way of the future
M	55-64	U	Y	Arapahoe	It provides a tool to everyone with digital access that can elevate their professional and personal lives. It gives the individual knowledge and access never before existed.
M	55-64	U	Y	Arapahoe	Business and personal use
M	65+	U	Y	Arapahoe	Efficiency for remedial tasks and eep dive in analytics
F	45-54	D	Y	Archuleta	Helpful tool, next level of human development
M	45-54	D	Y	Archuleta	AI could be the greatest thing ever or it could destroy us all.
M	65+	D	N	Boulder	I’m a contractor and these tools have been very useful to learn about processes that I was unfamiliar with.
M	35-44	U	N	Boulder	It’s useful if used wisely and can help you if you’re stumped on something.
F	55-64	U	N	Boulder	It’s a good tool to review documents that might contain unfavorable information or provisions
M	18-34	D	Y	Boulder	I think its useful and inevitable but I strongly disapprove of its ecological effects. I'd rather pay more for it than it hurt the environment
O	18-34	D	Y	Boulder	AI makes me much more efficient. Google search is garbage these days.
M	35-44	D	Y	Boulder	Massive productivity booster, instrumental in my wife and me founding our own businesses and growing them successfully.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	45-54	D	Y	Boulder	I hope it erases humanity.
F	55-64	D	Y	Boulder	It has helped me make informed decisions where i would have otherwise been stuck
M	55-64	D	Y	Boulder	AI promises to be the most useful aid to workers and families in our lifetimes.
M	55-64	D	Y	Boulder	It has helped me answer questions about family matters including family financial matters and helped with work-related matters. It's very helpful.
M	55-64	D	Y	Boulder	It can complete complex repetitive tasks quickly. Simplified interfaces with agents allow more users to access these capabilities.
F	65+	D	Y	Boulder	It can be useful, although there's too many hallucinations and too much hype. So you cannot rely on the answers, you have to do extra work to validate it. And, the results are being directed by the AI companies so that is a limitation affecting freedom of speech. For example, it sources recipes only from recently popular sites, and also it completely discourages Information from more open-minded Or non-traditional sources (ie: It always says holistic nutrition and holistic medical is not valid and then directs you towards the most popular health information websites that are controlled by pharmaceutical).
F	65+	D	Y	Boulder	Fast and easy answers for how-to's, history, general information.
F	65+	D	Y	Boulder	It's been very helpful in giving me accurate information and practical advice on complex health issues. It can factor together LOTs of my health history and issues and give answers that integrate all of it. I worked as a medical writer with training in evidence-based medicine so I have a sophisticated perspective, and I checked my own reliable sources and was never given any misinformation. No doctor has a working memory like AI does. It also appreciates the politics of healthcare, giving good advice on how to be politely but firmly assertive with doctors. Similarly with gardening, AI integrates general info on plants with local conditions and resources which is very helpful. So not only info about a plant, but whether it can thrive in my exact location, and often, where I can buy it. Same with legal questions.
M	35-44	O	Y	Boulder	It has completely changed how I am able to run my business, giving me (a small company) the opportunity to compete with much larger and more established businesses in ways I never could have prior to AI.
M	35-44	R	Y	Boulder	Why use 1 brain when you can use them all. Great resource for giving you an 80-90% solution nearly instantaneously.
F	45-54	R	Y	Boulder	AI, especially ChatGPT, has been instrumental in both my personal and professional life. It has helped me research and organize complex legal matters, analyze information, make better-informed decisions, and, as a business manager, improve operations, communication, marketing, compliance, and problem-solving. I especially value its ability to make complicated information understandable, challenge my thinking, support creativity, and turn ideas into practical action.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	55-64	R	Y	Boulder	AI can be very effective in facilitating both work and personal solutions and has also saved me a lot of valuable time
F	65+	R	Y	Boulder	It can be informative.
M	65+	R	Y	Boulder	Increases efficiency.
F	18-34	U	Y	Boulder	It can help me get menial tasks done faster, gives me the ability to code even though I don't have a degree in it, and can be a valuable way to consider multiple angles to a problem using its database or knowledge.
M	35-44	U	Y	Boulder	Extremely helpful to my life and extremely promising for the future
M	35-44	U	Y	Boulder	It's super useful and is obviously the future
M	35-44	U	Y	Boulder	Productivity tool.
M	35-44	U	Y	Boulder	I think that used the right way and the data center respecting residents of the area or state is a good tool to have for certain situations. It is NOT without significant error. I find using the AI beneficial because it can give you grounds to begin something or understand something. The problem is When people use it to just do something that they don't want to do.
F	45-54	U	Y	Boulder	Nice aggregation of data from multiple sources. Saves me time
M	45-54	U	Y	Boulder	AI is a very powerful tool that helps synthesize large data sets and information facilitating accelerated analysis and solutions. It needs to be used responsibly, but it is a critical technology that will lead to rapid improvements to the global environment.
M	45-54	U	Y	Boulder	Alpha Fold and what it does for modern medicine. Democratized access for marginalized communities. People now have access to the best accountant/attorney/medical practitioner on their phone.
M	45-54	U	Y	Boulder	It's the most amazing technology and gives agency to humans to accomplish their work and execute on their dreams
M	45-54	U	Y	Boulder	Helps us be efficient. New tool for designing software or designing anything in general.
M	45-54	U	Y	Boulder	It's really helpful for work, but the costs of it are crazy. Hard to see how it's going to support the valuations of these companies
M	45-54	U	Y	Boulder	Only choice now since search by Google is poorer in quality
M	45-54	U	Y	Boulder	It is helpful. I can take a picture of something broken in my house and it will tell me what it is and how to fix it. That used to take a lot longer as I would need to look up name, model numbers, etc.
M	55-64	U	Y	Boulder	Search engines have become too overtaken by commercial interests. AI results don't have that for now, but I'm not confident it will stay that way for long.
M	55-64	U	Y	Boulder	Makes tasks much faster to complete, much more efficient at many things.
M	55-64	U	Y	Boulder	It can help accelerate work by digesting and interpreting information. Downside of this is many people > 35 years of age will lose jobs. Above 50 years of age —- no one will want them.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
F	65+	U	Y	Boulder	I think it is helpful for research advancements in medicine, science, engineering, etc.
F	65+	U	Y	Boulder	I was impressed by the speed of the response.
M	65+	U	Y	Boulder	I like to have my questions answered directly rather than just a search engine deciding what I would like to see as relevant.
M	65+	U	Y	Boulder	The ability to have some tasks automated using a computer system to complete the work
M	45-54	U	Y	Broomfield	Efficiency, growth, innovation and saving time for my family.
M	65+	U	Y	Broomfield	AI allows complex questions to be answered in a thorough way.
M	65+	R	Y	Chaffee	It can improve our ability to make decisions and shuffle through research if used properly
M	55-64	U	N	Clear Creek	Assuming alignment can be maintained, we can derive benefit as a civilization out of AI-enhanced advancements. Some areas are sore points though (e.g. artists' stolen work, etc)
M	65+	R	Y	Clear Creek	Lessens dependence on internet searches, and allows for a search of specific subjects
M	35-44	D	N	Denver	It makes running my business so much easier. And really, it makes it possible. If I needed to do it all by myself it wouldnt be possible.
O	35-44	D	N	Denver	If AI is used correctly, it can do a lot of good for humanity.
F	65+	D	N	Denver	I work in IT, and if there’s adequate governance on AI, it’s extremely useful.
M	55-64	R	N	Denver	It helps when you after I go through too many grabbed holes to find the truth out about something that usually comes in these little easier
M	18-34	U	N	Denver	It has the ability to increase productive capacity
M	35-44	U	N	Denver	I believe that automation is the key to the emancipation of the proletariat from the shackles of capitalism.
M	35-44	U	N	Denver	Ai is like the new calculator.
M	45-54	U	N	Denver	It's very useful to me and has a lot of potential for improving the world.
F	55-64	U	N	Denver	Quick to give results. Creates accurate lists.
F	55-64	U	N	Denver	It has helped with writing tasks and answering questions with more detail.
F	18-34	D	Y	Denver	Think it is useful for work and for collecting information. However think there are issues with how it’s powered and how sometimes it is not reliable
O	18-34	D	Y	Denver	WTF? World-altering tech. Duh.
O	18-34	D	Y	Denver	It's a great tool for those struggling with learning disabilities.
F	35-44	D	Y	Denver	Increased productivity
M	35-44	D	Y	Denver	It helps me in my everyday life, even though it inches us closer each day to total annihilation
M	35-44	D	Y	Denver	It helps me at my job
F	45-54	D	Y	Denver	I use it to help optimize efficiency of repetitive tasks

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
F	45-54	D	Y	Denver	I think it can be used as a powerful tool, but it needs to be heavily regulated. Why are people making robots that fight each other? It's every nerd's dream come true. Too much AI in the military. I do not want to live through Terminator days. Too many people trying to be rich off it, the disgusting ways that people want to bulldoze the environment and hurt locals. It could be a powerful tool, but we need hard line laws that prevent it from getting out of control.
M	45-54	D	Y	Denver	It's a helpful tool, but scary as well
F	55-64	D	Y	Denver	Helps me all the time with learning facts, writing, and getting general information
M	55-64	D	Y	Denver	Able to conduct multiple tasks for a directive given.
F	65+	D	Y	Denver	It can speed up certain processes
F	65+	D	Y	Denver	Seems helpful
F	65+	D	Y	Denver	Can be positive
M	65+	D	Y	Denver	Easier than google
M	65+	D	Y	Denver	Fast, insightful responses. Anticipates follow-up questions and provides as good or better insights than experts.
M	65+	D	Y	Denver	It has provided detailed, concise answers to the somewhat simple questions I have asked it, much more useful than traditional Google search results
M	65+	D	Y	Denver	It shows promise but doesn't always get it right. And I would like it better if the world would get together and agree on some restrictions.
M	18-34	R	Y	Denver	I can figure out/learn far beyond my education
F	65+	R	Y	Denver	Makes life easier. Reads medical reports. Helps writing letters etc.
F	65+	R	Y	Denver	When put to the betterment of mankind, it is remarkable.
M	65+	R	Y	Denver	Creative AI has been helpful. Predictive AI is sometimes annoying.
M	65+	R	Y	Denver	It makes me much more efficient and accurate
F	18-34	U	Y	Denver	If nothing else, it provides me the reassurance and structure that I need to make the difficult necessary decisions of day-to-day life, much more manageable
F	18-34	U	Y	Denver	Useful but weird
F	35-44	U	Y	Denver	Because of the advancement it will provide for medical research, and other technological advancements that will enrich our lives
M	35-44	U	Y	Denver	It works
M	35-44	U	Y	Denver	I think AI will facilitate a lot of work for people and simplify daily tasks. AI will also bring benefits in medicine, engineering, law and all other specialties
M	45-54	U	Y	Denver	Helpful for science

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	45-54	U	Y	Denver	Rapidly reduces the time needed to research difficult things
M	55-64	U	Y	Denver	It helps complete tasks and enables me to achieve more than I could otherwise achieve on my own. It's also very efficient at explaining topics and providing instruction on areas, but I may not have as much experience.
M	55-64	U	Y	Denver	Time savings giving ideas, efficiency
F	65+	U	Y	Denver	I understand and appreciate its value I have extreme concerns about it being released unregulated. That's a huge mistake that we will be addressing for a very long time
F	65+	U	Y	Denver	Helps find solutions much faster
M	65+	U	Y	Denver	AI helps me understand difficult subjects and develop posters that help me diagram and clarify my thoughts.
M	65+	U	Y	Denver	ChatGPT has helped me analyze individual stocks more easily.
M	65+	D	N	Douglas	AI is the future and it's just getting started. It'll be the next best thing since the beginning of the internet. I don't think people realize important it'll will become in the future, and it's happening fast. I now use it daily for most anything on the internet.
M	45-54	R	N	Douglas	The use of AI personally and with my business has dramatically improved efficiency, time and accuracy of tasks done. It has now become not just a tool, but an integrated capability our company needs to be competitive.
M	55-64	R	N	Douglas	Works great for tasks but opinion will reflect the developer, so just need to be aware of that.
M	18-34	U	N	Douglas	AI can be an incredibly powerful research tool and has a lot of promise. However with all of AI in the US being privately owned and used for dubious purposes ok a large scale, it's difficult to have an overall positive opinion on AI. It has the potential to be a great tool, but it's being used for control of the masses and isn't used as a tool by the elites that are devouring our resources to build out it's infrastructure.
M	45-54	U	N	Douglas	It's fun to play with. It handles tasks much quicker than I can without it and it provides me the ability work kn the things I should focus on and somewhat automate the tasks I don't need to be doing.
M	55-64	U	N	Douglas	It's not been out long enough to really have an opinion about it it looks favorable right now
M	45-54	D	Y	Douglas	Tools are here to make life better, and I believe we are just scratching the surface. The potential is unlimited.
M	45-54	O	Y	Douglas	It reduces research time
M	35-44	R	Y	Douglas	I think it can help us
M	45-54	R	Y	Douglas	It is a great productivity tool and assistant in many of my work and personal tasks.
F	55-64	R	Y	Douglas	AI brings together information and allows me to research and make decisions quicker. It also is making headway into medical research, space, exploration, and many other areas of life.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	55-64	R	Y	Douglas	It improves efficiencies and knowledge exponentially.
M	55-64	R	Y	Douglas	Helps to refine my personal communication
F	65+	R	Y	Douglas	Great resource. Able to find info quickly. When queried about a finding, it will reconsider, check and change course. It learns if the proof is out there. So far I do not see AI bias….only the bias inherent in the information from which it collates data from.
F	65+	R	Y	Douglas	Easy to look up information. helps with recipes
M	65+	R	Y	Douglas	It is the new industrial revolution
M	65+	R	Y	Douglas	AI represents a tremendous opportunity for greater productivity, knowledge harmonization, and greater capabilities.
M	65+	R	Y	Douglas	Makes big sense & is the future
M	65+	R	Y	Douglas	Will massively increase productivity
M	65+	R	Y	Douglas	Increased productivity, easy to research complex topics, valuable for writing or editing articles and correspondence.
F	35-44	U	Y	Douglas	Reduces time to complete some tasks albeit accuracy is missing at times
F	55-64	U	Y	Douglas	AI helps humans do great things faster and at higher quality.
F	55-64	U	Y	Douglas	Seems to be able to give pros and cons and good suggestions.
F	55-64	U	Y	Douglas	It is here to stay, need to learn how to use it
F	55-64	U	Y	Douglas	Very useful tool in helping perform my job
M	55-64	U	Y	Douglas	It can be a good resource for fast information. However, sources are not fully vetted and information be skewed.
M	55-64	U	Y	Douglas	Informational
M	65+	U	Y	Douglas	AI is helping streamline much of the routine drudgery in my daily work. AI agents can now do many of the tasks I need to do and present with with decisions that are actionable.in my personal life, I use AI daily for research on everything from what designing and selecting a vendor for a solar project to building a vacation plan.
M	65+	U	Y	Douglas	I like it most using Facebook that gives me an AI answer on various questions
M	65+	U	Y	Douglas	It's a tool that can make processes more efficient. Like any tool it can be used for good and bad but I think, overall, it can be good.
M	65+	U	Y	Douglas	It is useful
M	65+	R	Y	Eagle	It was as if talking to a real person!
F	55-64	U	Y	Eagle	Advancements in health care are important positives
F	55-64	D	N	El Paso	It can help you tremendously if used properly.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	55-64	D	N	El Paso	It helps me compose better communications, and answers tough questions
M	55-64	D	N	El Paso	I use AI extensively in my position at work, my small family business, and personally.
M	65+	D	N	El Paso	Just looking for info on different things.
M	35-44	O	N	El Paso	It's a useful tool that accelerates problem solving and productivity
M	35-44	O	N	El Paso	Has huge potential
M	45-54	O	N	El Paso	It's very helpful
M	35-44	R	N	El Paso	It is useful.
F	55-64	R	N	El Paso	Prime example out of a few legitimate examples: AI helped me to troubleshoot a serious issue with my vehicle that ended up costing $190 instead of the $1600 quoted at the local name brand tire & brake repair shop. AI helped me me when I really needed the help and it was very hard to get anyone to listen to what we figured out needed to be replaced. I had to insist on the specific parts that needed replacement. Turns out we were 100% correct. Zero issues since then.
F	55-64	R	N	El Paso	A valuable tool in work and home life, It is here and now if you can't beat 'em join 'em
F	65+	R	N	El Paso	Helpful at times.
M	65+	R	N	El Paso	Easy to check out if it is true or not
M	65+	R	N	El Paso	Easy to use.
M	65+	R	N	El Paso	Future opportunities for business country and education
M	35-44	U	N	El Paso	Artificial Intelligence is a tool like any other. It has the ability to be used for good things or bad things. Just like a knife or hammer. BUT... unmitigated consumption of resources, destruction of historical texts, and elimination of entire sections of the economy must be considered and prevented when appropriate.
M	35-44	U	N	El Paso	Helpful with long computing tasks
F	45-54	U	N	El Paso	Sometimes it can be helpful however it harms the environment and can be overused and over relied on.
F	65+	U	N	El Paso	I think it can improve many areas of data information.
M	35-44	D	Y	El Paso	It's an inevitable piece of technology that we will use. Like all technologies, there are growing pains, but the tech itself is a powerful way to become more efficient in so many areas of life.
F	45-54	D	Y	El Paso	Because of it's access to a vast database, it is very helpful with researching information & looking up resources specific to your needs.
F	45-54	D	Y	El Paso	It has helped me complete tasks quicker and navigate the internet more easily
F	55-64	D	Y	El Paso	I think AI companies need stricter regulations to ensure privacy and copyright laws are not violated. Additionally AI that can cause harm to an individual should be banned.
M	55-64	D	Y	El Paso	It helps me to do some research more efficoently.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
F	65+	D	Y	El Paso	It can help with research - track down and organize data. The conclusion that it draws cannot be trusted to be an accurate representation of the data
M	65+	D	Y	El Paso	Easier to get unbiased answers
M	65+	D	Y	El Paso	Think it may be a good tool, but still has too many hallucinations at this time.
F	18-34	R	Y	El Paso	Nice to use for research at work and to use to help with personal tasks. Convenient and easy to use.
M	18-34	R	Y	El Paso	Technology is the key to eudaimonia.
F	45-54	R	Y	El Paso	It is an excellent tool but only when historic books are preserved, not destroyed. When the information is FACTUAL and not lying propaganda. When it is private and useful, not woke and manipulative.
F	55-64	R	Y	El Paso	It’s helpful & time saving
M	55-64	R	Y	El Paso	It helps with work #1 reason and helps me with research on products I purchase
M	55-64	R	Y	El Paso	Because as an Author it allows me to cut my research by half
M	55-64	R	Y	El Paso	Quick and effective
M	55-64	R	Y	El Paso	To help with communicating.
F	65+	R	Y	El Paso	Quick answers to questions. Answers have always been valid upon double checking
M	65+	R	Y	El Paso	Speed, accuracy, truthful
M	65+	R	Y	El Paso	Increased productivity. Enhanced research speed; capabilities. Faster development of medical advances.
M	65+	R	Y	El Paso	Great potential benefits.
M	65+	R	Y	El Paso	I think it will be good for the most part but would want some safeguards put on its usage.
M	65+	R	Y	El Paso	Great tool, saves tons of time i used to haven't research from multiple sources
F	18-34	U	Y	El Paso	It’s a helpful tool but I am still weary and concerned with what it will cause in my life and the life of others.
F	18-34	U	Y	El Paso	I think we must learn how to use it right, because it is not going away.
M	18-34	U	Y	El Paso	It makes working with computers much easier.
M	18-34	U	Y	El Paso	It helps speed up work flows. Gets answers quickly and helps solve problems quickly.
M	35-44	U	Y	El Paso	Its east
M	35-44	U	Y	El Paso	It provides an interactive way to brainstorm for personal and professional projects. If it's very useful for software engineering
M	45-54	U	Y	El Paso	Good tool, fearful of our future.
F	55-64	U	Y	El Paso	..
M	55-64	U	Y	El Paso	Helps me with productivity and getting quick information
M	55-64	U	Y	El Paso	I like the options and access to information
M	55-64	U	Y	El Paso	Loss of rights, loss of jobs, further government intrusion, data center biohazards

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	55-64	U	Y	El Paso	AI is a useful tool.
F	65+	U	Y	El Paso	Time saving applications for research and industry development when used within the boundaries of true primary sources and full disclosure
F	65+	U	Y	El Paso	I can get a comprehensive answer to my questions
F	65+	U	Y	El Paso	Useful tool that must be managed
F	65+	U	Y	El Paso	I think it has the potential to supplement the gathering of information, but also takes away from people thinking for themselves
F	65+	U	Y	El Paso	The answers I receive are good advice
M	65+	U	Y	El Paso	Extraordinary resourcr
M	65+	U	Y	El Paso	I think it’s needed but should be carefully regulated.
M	65+	U	Y	El Paso	More thorough response than through other options
M	65+	U	Y	El Paso	It’s beneficial in answering some questions, but you have to filter the information
M	65+	U	Y	El Paso	Makes prediction/forecasts based on data.
F	55-64	R	N	Elbert	The advice given and questions answered have benefited me. If medical i am advised to check with a Dr with health or excersise/diet questions
M	55-64	U	Y	Elbert	Saves so much time vs doing all of that research manually using google
M	45-54	D	N	Fremont	I use and teach it.
F	65+	R	N	Fremont	I use it for verifying information. However, I will ask questions in different ways and sometimes get a different answer. If AI is used for good intention purposes I see great value. If not - it will harm society.
F	55-64	U	N	Fremont	AI can help us with research and advancing our society. The problem isn't AI the problem is the humans abusing it and making poor decisions out of greed
M	65+	R	N	Garfield	Time saver.
M	18-34	U	N	Garfield	It's very useful
F	55-64	U	Y	Gilpin	Helpful in my business and personal life
M	55-64	D	Y	Huerfano	Minimizes time for routine research and data compilation
M	35-44	U	Y	Jackson	Incredible force multiplayer. I can get hundreds of tasks done or questions answered in an hour that used to take me weeks.
M	55-64	D	N	Jefferson	It is a handy tool but should be kept in check.
M	35-44	O	N	Jefferson	I think LLMs are a good tool, when used appropriately and their limitations are understood.
M	45-54	R	N	Jefferson	There is a weakness in the Colorado workforce. I don't trust Colorado to educate my retirement. Need be I will open AI to suggestions.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
F	18-34	U	N	Jefferson	I'm really bad with writing and grammar and being a full-time student. It helps me to fix my papers because I also will sometimes do like run on sentences and repeat myself so I just always use it to double check my papers before submitting it to my college teachers
M	55-64	U	N	Jefferson	It can be a good tool, if regulated properly.
M	18-34	D	Y	Jefferson	It's the next technological revolution. Anti-data center is funded by CCP and Far-Left orgs.
F	35-44	D	Y	Jefferson	It's allowed me to do things at work I wouldn't have been able to do in the past.
F	35-44	D	Y	Jefferson	I think AI has the potential to be a useful resource, as well as a tool of destruction
M	35-44	D	Y	Jefferson	AI will fundamentally change the way we work and socialize. People need to understand there's no stopping it, get ahead of the curve and embrace it.
F	45-54	D	Y	Jefferson	Helps me be more efficient at work/life but threatens my job in corporate communications.
F	45-54	D	Y	Jefferson	If you can't beat 'em join 'em
F	45-54	D	Y	Jefferson	Being a small business owner, artificial intelligence is gonna help me because costs are so darn expensive. Software costs are per user generally and it really gets expensive. Now I'm creating my own software replacing the software that cost so much money. AI is empowering me in so many different ways and I'm getting things done much faster.
F	45-54	D	Y	Jefferson	AI is good for the information purposes only. Pictures and videos are unnecessary, too much going on in the world that some people can't relate the real and fake graphic information they receive. Besides the water power to run the AI is harmful the environment. Please consider our future generations.
M	55-64	D	Y	Jefferson	It is an amazing technology. I don't personally use it but there are many many good uses for it.
M	35-44	O	Y	Jefferson	It makes my job easier. From a personal perspective, I like it chains together all the other questions and answers in the same chat to provide a more well-rounded contextual answer for what I'm looking for.
F	45-54	O	Y	Jefferson	It can be a useful tool for humans, BUT not a replacement for humans
F	55-64	R	Y	Jefferson	It has helped me with my business tremendously.
F	65+	R	Y	Jefferson	Used responsibly could be invaluable in the medical field
M	65+	R	Y	Jefferson	Because it works.
O	65+	R	Y	Jefferson	Properly used and deployed AI has the capability of making human work much more productive that will allow humans to pursue the activities of their choice. I am however very concerned that AI will be deployed for destructive capabilities such as in war and to replace the jobs that humans are doing now
M	18-34	U	Y	Jefferson	It's a useful tool for some things at home and at work, and while it has positive and negative societal impacts the negative parts are more related to underlying power and equality issues than the technology itself.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
F	35-44	U	Y	Jefferson	AI requires human supervision / direction, and will for some time. Augments humans 10x or even 100x. We have “some” time to figure out what we’ll do when we reach AGI.
F	45-54	U	Y	Jefferson	It can be a useful tool for research
M	45-54	U	Y	Jefferson	I think it can be a great resource and productivity and knowledge tool to help with both personal and professional tasks. However it has serious risks and costs and I am worried about its future without guardrails put in place
M	45-54	U	Y	Jefferson	It is an expert enhancement tool that I use often to extend my capabilities, and make myself far more productive than I would be otherwise. It's helped me with so many personal, business, and work related projects. I used it almost every day. It's increased my earnings as well.
M	45-54	U	Y	Jefferson	Saved me a lot of time
F	55-64	U	Y	Jefferson	It's convenient and this generation does bad customer service so it really helps skipping customer service and just asking AI when dealing with gov agencies like unemployment, social security, medicare, etc.
F	55-64	U	Y	Jefferson	Saves me time researching
F	55-64	U	Y	Jefferson	It can be helpful with my job
F	55-64	U	Y	Jefferson	It is a helpful time saver.
F	55-64	U	Y	Jefferson	Hugely powerful capabilities
F	65+	U	Y	Jefferson	Makes certain tasks easier. Mostly use for travel /tour suggestions in unfamiliar locations.
F	65+	U	Y	Jefferson	I have found it helpful
M	65+	U	Y	Jefferson	It is a good search engine.
M	65+	U	Y	Jefferson	It’s more focused than a simple browser search.
F	45-54	D	Y	La Plata	I use it to help with research
M	65+	U	Y	La Plata	It’s very advance
M	35-44	D	N	Larimer	It's usage is very helpful to save research time and time organizing or reworking data
F	45-54	D	N	Larimer	It’s incredibly helpful, especially with work tasks and even basic life questions. The only reason I’m not completely favorable is that I see great potential for overuse, misuse, child and YA misinformation, and the expanding of the lack of human to human interaction. More than social media is already doing.
F	65+	D	N	Larimer	Gets answers fast
F	65+	D	N	Larimer	I’ve read that it’s useful in making data gathering processes less time consuming.
F	65+	D	N	Larimer	Helpful overall
F	65+	R	N	Larimer	I use AI to help me cook adjust recipes and give me ideas on what to use
M	65+	R	N	Larimer	Assistance doing various tasks on computer.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	35-44	U	N	Larimer	AI is the greatest technology advancement of our time, from customized medicine, mRNA breakthroughs in treatments, to allowing creatives and filmmakers to ship things that they could not previously, to opening up new buisness opportunities AI is happening regardless and people need to learn now
F	65+	D	Y	Larimer	The ease of looking up a variety of information, tends to be very factual. Use it for a wide variety of information.
F	65+	D	Y	Larimer	Very helpful for decision making
F	65+	D	Y	Larimer	I post important information online for business and get advice on gardening and other hobbies.
M	65+	D	Y	Larimer	Helps me be a better writer and creator
M	65+	D	Y	Larimer	It's useful for tasks. But AI products be watermarks for identification and AI producers need to be liable for damage.
M	65+	O	Y	Larimer	Has made many things in my life easier
M	35-44	R	Y	Larimer	Takes mundane tasks and allows me to focus on more complicated issues
F	45-54	R	Y	Larimer	It does help reduce time in researching and helping to complete tasks
M	55-64	R	Y	Larimer	Quick and thorough
M	55-64	R	Y	Larimer	I have a somewhat favorable opinion of AI because, right now, I see tremendous practical value in it and use multiple AI platforms regularly, including ChatGPT, Claude, Grok, and Gemini, depending on their different strengths. AI has already improved access to information, productivity, problem-solving, research, and communication in meaningful ways. What keeps me from saying "very favorable" is concern about the longer-term risks. As AI becomes increasingly capable and autonomous, I think there is a legitimate possibility that our ability to control how it is used may not keep pace with its development. I am particularly concerned about governments, foreign actors, corporations, or other bad actors gaining access to enormous amounts of information and using advanced AI for surveillance, manipulation, censorship, misinformation, or population-level influence. So my hesitation is not primarily about AI as it exists today. I am very positive about its current usefulness. My concern is whether increasingly powerful AI could eventually become a "genie out of the bottle" that is extremely difficult to contain, regulate, or prevent from being misused.
F	65+	R	Y	Larimer	I have used it as a customer service voice and it works okay
M	65+	R	Y	Larimer	Good first medical research and similar
M	65+	R	Y	Larimer	��AI" is simply the next level of automated data processing… state of the art in computing
M	65+	R	Y	Larimer	It's not always correct, so other sources should be investigated.
F	18-34	U	Y	Larimer	Editing emails to make them more clear and concise

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	35-44	U	Y	Larimer	Easy to use like a new generation of word processing
M	35-44	U	Y	Larimer	Makes work easier and helps explain ideas
M	35-44	U	Y	Larimer	Improves ease of gathering information and completing some electronic-based tasks.
M	55-64	U	Y	Larimer	AI is going to help us be more efficient
M	55-64	U	Y	Larimer	For a range of purposes like Natural Language Processing, AI adds significant value.
M	55-64	U	Y	Larimer	For certain repetitive tasks, it's a huge help. Also good at rudimentary programming.
M	65+	U	Y	Larimer	Saves time
M	65+	U	Y	Larimer	It seems to be able to help people do some things more quickly and accurately, and to do other things that couldn't even be done without it.
F	18-34	U	Y	Lincoln	I want to be an author and AI has been very helpful with it. Researching to ensure my fiction is accurate has never gone so fast, and it's helped me improve my skills as a writer. It's been 2 and a half weeks since I had it start helping me improve how I write and there's already a noticeable difference. My husband is also a police officer and so he'll have it tell him about case law.
M	35-44	R	N	Mesa	It helps clean up a document I was typing
F	45-54	R	N	Mesa	It makes tasks faster.
F	45-54	R	N	Mesa	It helps streamline tasks.
F	45-54	U	N	Mesa	I see and hear good things about making money online with A1. I do believe its the only positive thing.
M	65+	U	N	Mesa	If we do not embrace it, we as a nation will be left behind
F	65+	D	Y	Mesa	It's useful
O	65+	O	Y	Mesa	For a 2nd opinion
F	55-64	R	Y	Mesa	Pretty good info when I need it! Sometimes not totally correct info. It kind of scares me a bit
F	55-64	R	Y	Mesa	Ease of use - timely assistance - have had positive outcomes using AI
F	65+	R	Y	Mesa	ChatGPT was useful in giving me an itinerary for various travels. But I do not like AI for deep diving into peoples lives. Friends have sent me information on people we know that are not correct.
M	65+	R	Y	Mesa	Unsure if it will be used for good, especially if politicians get involved.
M	45-54	U	Y	Mesa	Works quick and easy. Daves time.
M	55-64	U	N	Moffat	Easy to use.
M	45-54	R	Y	Moffat	My work and life projects easier and more productive
M	65+	D	Y	Montezuma	It's useful to me for reviewing writing or synthesizing medical findings.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	45-54	R	Y	Montezuma	Has the ability to revolutionize our daily workload, manage an infinite number of tasks, replace knowledge based workers and revolutionize the way we live (like the introduction of the internet). It does have problems like cognitive bias, source validation (fact vs opinion) can have challenges with many diametrically opposed positions and is subject to abuse/manipulation. (However our brain/mind is subject to the same vulnerabilitiesl
F	55-64	U	Y	Montezuma	It helps get things done for adults
F	18-34	R	N	Montrose	It's a helpful and quick tool and it's better than Google when I need information but don't know how to word it to get the most accurate result: ai streamlines that process and it helps so much
F	65+	R	N	Montrose	USSecurity
M	65+	R	Y	Ouray	It's the new industrial revolution. we can't be left behind the Chinese.
M	65+	D	Y	Park	Can be a useful tool.
M	45-54	O	Y	Park	Didn't say I had a favorable opinion. Nonetheless, while there are positive use cases… most are negative
F	65+	R	Y	Park	Informative
F	55-64	U	Y	Park	Helps my writing
M	65+	U	Y	Park	AI provides information that is valuable to me. It provides the information quickly and is interactive
M	65+	U	Y	Park	It's helpfull
F	18-34	O	N	Pueblo	Can be useful in researching routes, products to buy, etc.
F	65+	R	N	Pueblo	Further the US
F	18-34	U	N	Pueblo	I enjoy being able to talk to someone about things that others wouldn't be interested in hearing or things if never post online. HOWEVER I do NOT support AI data centers.
M	45-54	U	N	Pueblo	It has great potential to advance society, if used correctly.
F	55-64	D	Y	Pueblo	It is easy to use and saves time doing complex tasks.
F	65+	D	Y	Pueblo	I do not believe its creators have full control over these programs.
F	45-54	O	Y	Pueblo	It's quick, has realistic formulated ideas or plans
M	55-64	R	Y	Pueblo	It is productive.
M	65+	R	Y	Pueblo	It's good in certain situations
F	35-44	U	Y	Pueblo	It helps me with every day mundane tasks as well as more advanced tasks. It has easily integrated into my life as a helpful tool that I look forward to using in the future to help my family grow and be better educated as well as entertained.
F	45-54	U	Y	Pueblo	It is helpful for doing tasks that are time consuming or require research.
F	55-64	U	Y	Pueblo	It's fun and nice to have an assistant.

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	65+	R	Y	Rio Grande	I utilize it for all kinds of help and similar to Google maps and finding locations setting up appointments finding more about medications
F	45-54	D	Y	Routt	I appreciate how I can help me streamline things for work
M	65+	D	Y	Routt	I have found it useful to obtain detailed information on various subjects quickly. If helped with preparing a book for publication.
M	65+	D	Y	Saguache	ChatGPT answers many questions about many different questions I have about many different things
M	45-54	D	Y	San Miguel	Decreases workload and has quick info
M	65+	R	N	Summit	It is fast and hopefully wi speed up the development of cancer drugs.
M	18-34	U	N	Summit	Can be useful, especially for review of lengthy documents.
M	18-34	D	Y	Summit	I've found it to be helpful for research purposes as well as for creating things that I'm unfamiliar with.
F	55-64	U	Y	Summit	It is going to be used and national security to be ahead of China
F	35-44	D	N	Weld	It make menial tasks at work easier as well as getting things like recipes for personal use
M	45-54	R	N	Weld	No good will take over and people loss jobs
M	45-54	R	N	Weld	It's fast, flexible and allows business to work in a more efficient manner.
F	55-64	U	N	Weld	I believe it has the capacity to do incredible good in the world - from helping to cure cancer and other horrible diseases, to helping us with our every day lives.
F	55-64	D	Y	Weld	AI is an evolving tool that needs guard rails
M	35-44	O	Y	Weld	It’s extremely useful and enables me to be very productive. It makes work easier
F	45-54	R	Y	Weld	AI can compile data faster and give me a quick answers. I use it daily for labor cost in the automotive industry.
M	55-64	R	Y	Weld	Speed, access and presentation of information
M	65+	R	Y	Weld	While it is an advanced search engine and not intelligent the user front end is constructed to be communicative rather than just a series of wuestion like previous search engines
F	35-44	U	Y	Weld	Great to optimize workflows, help to disseminate available information, and overall helping with routine tasks. However downstream impacts and the cost to the economy and our water sources is alarming—including closed loop water systems that still aren’t favorable. Hoping we can find a solution for appropriate use but not inundating our economy and resources for functionality.
M	35-44	U	Y	Weld	It has the potential to amplify human abilities and spread truth
M	45-54	U	Y	Weld	Because it works, we need the jobs and we need to stay ahead of China and other countries!
M	65+	U	Y	Weld	Does a great job quickly searching through photos and videos
M	65+	U	Y	Weld	It provides the capability to explore ideas and create code and sheets that help me solve problems more quickly

2026 Colorado AI and Data Center Opinion Survey
"Please describe the reasons why you have a favorable opinion of artificial intelligence (AI)."

Sex	Age Range	Party	Degree	County	Response
M	65+	U	Y	Weld	It is a very useful tool for research and daily tasks.
